

W. C. T. U. WILL MEET IN INSTITUTE HERE TOMORROW

Lake County Temperance Group Will Have All- Day Program

Officers of Lake County W. C. T. U. will conduct an institute at the M. E. church in Antioch Friday, June 20. The program will begin at 9:30 o'clock Friday morning and continue throughout the day. There will be a pot-luck dinner at noon served in the basement of the church. The public is cordially invited to this institute.

The following program will be given:—
Song Service, 9:30. Devotionals, leader, Mrs. Rule Hagerty, county secretary. Purpose of the institute, Mrs. Mary Metcalf, county vice-president. Flower Mission Relief, Miss Elsie Chase, county director. Preliminary Drill, Mrs. Mary B. Lake, county director. Review of State W. C. T. U. Bulletin. Noonday Prayer, followed by Adjournment.

Pot-luck dinner.
Song Service, 1:30. Devotionals. White Ribbon Recruits, Mrs. Mary B. Lake, county director. Address, "The Benefits of Prohibition," Rev. Philip T. Bohl. Music. Christian Citizen ship, Mrs. Estelle Garrett, county director. Soldiers and Sailors, Mrs. Ida Farmer, county director. Music. Social Morality, Mrs. Leona Thomas, state director. Closing remarks by Mrs. Mary E. Tibbets, county president who will preside over the institute.

ILLINOIS-WISCONSIN NIGHT FEATURED AT PALACE TOMORROW

Cream of Amateur Talent from States on All- Star Card

The weekly amateur boxing show at the Antioch Palace will assume interstate proportions tomorrow night when Promoter Dick Macek brings together the cream of talent from Illinois matched against Wisconsin's best in an all-star card of eight bouts.

Featuring the show will be the windup scrap between Leo Schneider, of Elkhorn, Wis., and Tom Murray, Chicago, two fast 140 pound batters that have the reputation of mixing from start to finish.

The semi-windup will bring together H. Schwartz, Elkhorn, and Herb Simmons, Lake Forest. The supporting bouts of six fast preliminaries will feature such stars, as Andy Derr, Burt O'Donnell, Earl Vermilyer, Tony Bernice, and others who have pleased Lake county fight fans.

"Black Shadow" Whips Taylor
Heywood Storey, Central States A. A. U. champion, had things all his own way in his match with Johnny Taylor at the Antioch Palace ring Friday night. The big colored boy, who has been dubbed the "Black Shadow," showed fans he is a shadow and a slugger also. He walloped Taylor all over the ring for three rounds, and a big smile at the conclusion of the affair informed the fans that he had enjoyed the evening immensely.

Dorland Wins Easily
Danny Dorland, Florida state champion at 145 pounds, proved too much for Bill Richter of Chicago, and the former took a technical K. O. victory in the second round. The Floridian had everything, displaying a terrific right hand hook that continually felled the Chicago boy in the two rounds of fighting.

The windup affair of the evening between Johnny Connelly of Chicago and Billy Kenney, A. A. U. lightweight champ, was a real hard fought battle. Kenney had to travel four rounds to gain the decision. Connelly had a hard time finding a target, but showed plenty of fight throughout.

Benton Brothers Victorious
In the preliminaries Jimmy Milton of Chicago beat Buddy Moore of Kenosha. Augie Benton of Kenosha had L. Weinberg groggy after one round of milling and gained a knock-out in the second round. Oscar O'Hannon of Waukegan dropped a decision to Eugene Berton of Kenosha. Don Merriman put up a good fight to take a victory from Chet Upham, tough looking red head from Kenosha.

Vic De Meyer took the decision

Old
Eagle
Eye
Says--

Politicians are again assembled in Springfield in what is referred to as a special session of the legislature. Readjustment of tax problems is supposed to be worrying the Illinois lawmakers. "Only a day or so of real work," says Secretary of State Bill Stratton. Only a few days real work perhaps, but several days lobbying and political manipulation. Okay, present the bill of expenses for the extra session to the Illinois tax-payers. If they don't like it, they'll learn to tolerate it in time.

At that, politicians aren't so slick—they miss a lot of good bets. Think what a grand time they could have with appropriations to eradicate the house fly.

An Antioch sage ventures the remark that this is the age of experts, that every community has its experts and specialists. Quite so, but it is still best to employ men who have intelligent ignorance. It's folly to pay people for what they know. An encyclopedia knows more than any 50 men you could hire and you don't have to board it or pay it a salary.

Through the enterprise of C. L. Kuttel and his associate officers in the local poultry association, Antioch is to have its first country fair in October this year. State aid to be received makes possible the offer of \$1,500 in premium money, which ought to make the fair attractive to exhibitors.

The Volsted Act and the Illinois statute requiring the publication of statements by those disbursing public funds are washouts in this community, but not so with the Illinois law requiring the destruction of Canada thistles, declares Mike M. Burke, thistle commissioner, who says he is going to carry out the edict as provided for in section three of the law.

By the way, did you see the village treasurer's report last week? It consisted solely of an invitation to taxpayers to call at the clerk's office and there to feast their eyes upon the figures compiled by the auditors. Don't crowd—the line forms to the right.

By resorting to this weak subterfuge in lieu of a regularly published financial statement, the powers that be in Antioch have almost literally thumbed their noses at the law, which doesn't seem to mean a damn thing in Antioch or in Antioch township. Here it is again, the same old law, carrying the same old maximum penalties for violation—\$500 cash fine and a year in the hoosgow.

Be it enacted by the People of the State of Illinois, represented in the General Assembly: Each public officer, other than a state officer, who, by virtue of his office received for disbursement and disburses public funds in the discharge of governmental or municipal debts and liabilities, shall, at the expiration of each fiscal year, prepare a statement:

(1) Of all moneys received and from what sources received, giving items, particulars and details:
(2) Of all moneys paid out, giving the name of each individual to whom paid, on what account paid, and the amount.

Such statement shall be subscribed and sworn to by the public officer making such statement, and, within thirty days after the expiration of such fiscal year shall be filed in the office of the county clerk of the county in which such public officer resides. Chap. 102, Sec. 5.

To Be Published
Such public officer shall also, within thirty days after the expiration of such fiscal year, cause a true, complete and correct copy of such statement to be published one time in a newspaper published in the town, district or municipality in which such public officer holds his office, or if no newspaper is printed and published in such town, district or municipality, then in the nearest newspaper printed in the English language published in the county in which such public officer resides. Chap. 102, Sec. 6.

Misdemeanor—Penalties.

In addition to the penalties provided for in the foregoing section, any public officer, or any publisher, subject to the provisions of this act from Jimmy Fitzgerald of McHenry in the opening bout of the night. The entire card proved to be a thriller, and the general opinion after the fight was that return appearances of Dorland, Storey and Kenney would make any show a great drawing card.

\$1,500 IN PREMIUMS WILL BE OFFERED AT COUNTY FAIR

First Exhibit to Be Held Here October 9-11; State Aid Secured

Fifteen hundred dollars in cash premiums will be offered at Antioch's first fair in October. It was announced following a meeting of directors of the Antioch-Lake Villa Poultry and Country Fair association at the high school here Tuesday night, and the date was set for October 9, 10, and 11.

Premiums will be offered in the following departments: poultry, farm crops, floriculture, vegetables and fruits, fine arts, domestic arts, education, and culinary.

State Aid Approved
Application for state aid has been approved by the State Director of Agriculture at Springfield and committees are being appointed to work on the details of each department. The Antioch organization was recently designated to receive state aid by the Lake County Board of Supervisors.

Thistles Must Be De- stroyed, Department of Agriculture Warns

Mike Burke Receives Dras- tic Order to Enforce the Law

Warned by the superintendent of the division of plant industry of the Department of Agriculture, that he is responsible for observance of the law regarding the destruction of Canada thistles, Mike M. Burke, local commissioner, has issued orders to all property owners and tenants to have all Canada thistles growing on their premises destroyed before the weeds go to seed.

Drastic orders have been received by the local commissioner, and the state department points out the proper procedure in cases of violation.

"When Canada thistles are not destroyed as required by the Canada Thistle Law," the order states, "there is no one to blame but the commissioner of Canada Thistle because he has it within his power to compel property owners to destroy Canada thistles, as per Section 3 of the Law. Failure to comply with the law is just cause for prosecution, therefore, you should make an example of any violators by causing them to be prosecuted."

"Thistles in growing crops and in all places must be kept from going to seed or prosecutions will result. No excuses will be accepted. As a duly appointed officer you take an oath to enforce the law, therefore, you should do your duty."

Antioch F. F. A. Defeats Gurnee In Baseball Game

In a closely contested game the Antioch Chapter of The Future Farmers of America defeated the Gurnee Chapter by the score of 21 to 1 last Saturday afternoon. Mastno pitched and Hanke was on the receiving end for the locals. After the ball game the Antioch Horseshoe Pitching team defeated the Gurnee team by the score of 15 to 4.

The next game here at Antioch will be with Marengo on June 28.

Act, failing, neglecting or refusing to discharge any duty imposed upon him by this act shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined in any sum not less than twenty-five dollars nor more than five hundred dollars or imprisoned in the county jail not longer than one year, or be punished by both such fine and imprisonment in the discretion of the court. Chap. 102, Sec. 10.

And here's how Antioch officials complied with the law:

NOTICE
The auditors and accountants have completed an examination of the books and accounts of the office of Antioch, which is now on file in the office of the village clerk and may be seen by anyone who desires to do so.
HARRY A. ISAACS,
Village Clerk.

Music Diploma at 3

Little Margaret Ann Guest, three-year-old daughter of Mr. and Mrs. W. H. Guest, of Baldwin City, Kan., with Dean Gaskill of the conservatory of music of Baker university, when she received her diploma in music. She is believed to be the youngest graduate of a music school in the country.

WETZEL SELLS CHEVROLET SALES TO G. A. WHITMORE

Motor Company Executive Makes Purchase of Local Business Tuesday

G. A. Whitmore, late of Haryey, Ill., through a deal consummated Tuesday became owner and manager of the Chevrolet Sales and Service of Antioch, having purchased the business from L. M. Wetzel, who established the sales agency and garage here three years ago.

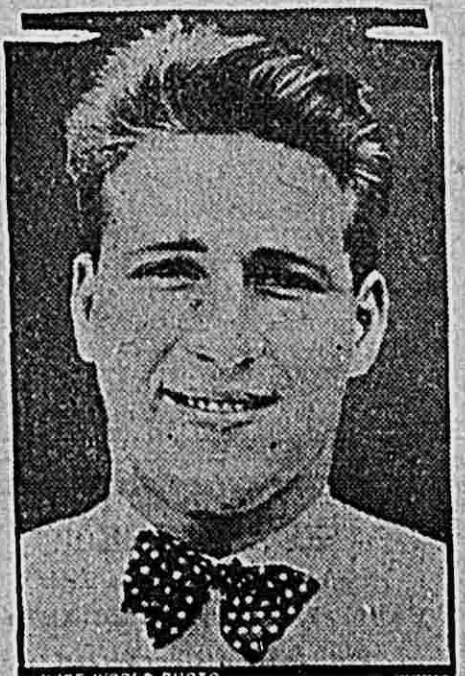

The new concern will operate under the name Whitmore Chevrolet Co., and will continue to occupy the Chevrolet building erected by Dr. Hardt a year ago. The new owner has had many years experience with the sales department of the Chevrolet Motor company, and for the last three years was in charge of the business management department.

As service manager, Mr. Whitmore has retained Frank Hodges, of Indiana Harbor, who has been in the Chevrolet sales field for 15 years. Mr. Wetzel will retain his lease on the Klein building which has been used as an annex to the garage, to be used as a salesroom for used cars and also as a garage for service work.

Mr. and Mrs. Wetzel have moved to the Homer Case house on Lake Marie, their own cottage on Channel Lake having been leased for the season. Mr. Whitmore and family will occupy the flat over the garage, vacated by the Wetzel family.

Otto Klass and Frank Hunt returned home Friday after a week's trip to Louisville and Lexington, Kentucky. In Louisville the pair met Elmer Monier, an Antioch boy who is taking an aviation course in the Kentucky city.

Pennsylvania Captain

Barney Berlinger, all-round star, was unanimously elected captain of the University of Pennsylvania track and field team for the 1931 season.

Antioch Women Return After Scenic Drive to Canada

Mrs. Elsie Schroeder, Mrs. Addie Williams and Miss Ruth Williams, accompanied by Mrs. Ruth Emerson, returned Saturday from an eight-day trip to Eveleth, Minn. They visited friends at Viroqua, Wis., and stayed over night at the home of Mr. and Mrs. D. T. Lindberg in Red Wing, Minnesota.

Red Wing is a beauty spot on the Mississippi bluffs. Chief Red Wing is said to be buried there at the top of Mt. LaGrange—more than 1000 feet above sea level. They visited Lake Vermillion in Minnesota. It has 365 islands and 1000 miles of shore line. Rev. Preston Bradley has a home on one of these islands. Eveleth is a mining town and they saw the miners lowered down the shaft to their work. They also visited Virginia. All of this part of Minnesota has numerous iron mines. They drove to International Falls and crossed into St. Francis, Canada—and on to an Indian Reservation near Rainy Lake. It was very warm and they saw Indians sitting in open Teepees. Had a picnic dinner at International Falls. Drove home through Duluth and Superior. At Withee, Wis., they called at the home of Edwin Munson. The recent cyclone had played havoc around this vicinity. At Chetek they called on Will Tiffany and Mrs. Lulu Vickers, both former residents of Antioch. The country about Chetek is very beautiful—many beautiful lakes, forests and rocks were seen on the drive—not to mention the lumber mills, flour mills, pottery factories, etc., and in Wisconsin acres of tobacco and green peas with no evidence now of the recent frosts.

The party stayed one night at Rice Lake, Wis. They were less than 18 hours driving from Eveleth, Minnesota, to Antioch.

Community Band Is Sponsored By Lake County Farm Bureau

A Community Band is being sponsored this year as a new project by the Lake County Farm Bureau.

Mr. Lloyd Ritzenthaler, who has been conducting several bands, and who has conducted the Prairie View Band for several years, will be the director. He is giving his time and knowledge for this new project. The Prairie View Band will form the nucleus about which the big County Band will be formed.

Anyone who has had some experience and wishes to enroll in the Lake County Farm Bureau Band should send in his name at once to H. C. Glickerson, Lake County Farm Adviser, at Grayslake, Illinois.

Mrs. Martin Burdick returned to her home in Clinton, Iowa, Sunday. She was accompanied by Mr. and Mrs. Roy Graves and two children. Mr. Graves returned home the first of the week. Mrs. Graves and children will visit relatives at Clinton, Iowa, and Dixon, Illinois, for a few weeks.

FEDERAL MEN PROBE FINDING OF MAIL BAG IN DEATH CAR

Man Dies in Crash North of Antioch; Two Are Injured

MAN HELD FOR INVESTIGATION

The death of one man and severe injuries to two others in an auto accident a mile north of Antioch at 10:30 Saturday became the center of a double inquiry Monday, one in which Coroner John L. Taylor was to investigate the cause of the death and another in which United States postal authorities are trying to learn why a government mail bag was in the wrecked car.

The dead man is John T. Fellenz, of the Central hotel, Chicago, who died Saturday night in the Victory Memorial hospital, Waukegan, of injuries received in the crash here earlier in the day.

Two men riding with Fellenz at the time of the crash, A. A. Lyman, 713 Rush street, Chicago, and George Lynn, 1347 Photo place, Chicago, are still in the hospital and suffering considerably from their injuries although both will recover, according to reports to Capt. George Heckinger, of the county highway police.

Are Tracing Mail Bag

Coroner A. B. Schmitz, of Kenosha county, and Sheriff Steve Robinson, notified government agents of finding the mail bag. The postal authorities stated that they would have the two men questioned about this.

"When my deputy talked to them they told him that it had contained a tent that was shipped to Camp Lake. I know, however, that the government does not send mail bags around with individuals. The prosecuting attorney and myself will attend the inquest. We have evidence that the men were drinking Saturday morning," Coroner Schmitz declared.

After swearing in a jury Coroner Taylor continued the hearing until Friday morning at 10:30 o'clock at the White & Tobin morgue. The body was taken to Milwaukee Wednesday for burial.

Heckinger Investigates

In his investigation Heckinger stated that he found no evidence of the men drinking. All had gone over the state line, he said, to establish a camp where they could fish over the weekend.

"From what I learned all were men of good repute," he said.

The three men reported as being part of a fishing party at Channel lake. They started in an automobile Saturday morning for Willmot to get some supplies. According to one of the injured men, a vampire car side-swiped the automobile the three men were in and caused it to overturn. W. J. Van Duzer, Antioch, who was walking on the road to his farm, said he saw the accident, but saw no other vehicle when the car left the road. The car was traveling at great speed, according to Mr. Van Duzer, who said the machine swerved several times before making the fatal plunge against a tree.

In the damaged car the empty mail bag was found by officials who are conducting the investigation. Sheriff Stephen Robinson of Kenosha has asked the Lake county authorities to hold the two men at the hospital until the mail bag mystery is solved. Postal officials were notified.

Lyman and Lynn will be asked to explain how the mail bag came into their automobile. A mother and brother of Fellenz, the dead man, who are believed to be living in Milwaukee, are being sought to identify the dead man. A radio broadcast was made in Milwaukee with the hope of reaching the relatives of the dead man.

Lynn is being held at the county jail for federal authorities who are carrying on the investigation on the empty mail bag found in the death car.

Homer Winch, rural carrier on route three, has been granted a leave of absence in addition to his vacation of fifteen days, making a period of six weeks, during which time he will give his attention to the management of Channel Lake pavilion. Arthur Trieger, route two, is also off duty, on account of illness. Clarence Kufalk is substituting for Mr. Winch, and Paul Chase is serving patrons on route two for Mr. Trieger.

Mrs. Samuel Ries left Friday for Eldorado, Wisconsin, to attend the funeral of a friend.

JUST MENTION THE NAME

How many times have you been told by a friend of yours who has given you the name of a friend of his whom he wishes you to meet to "Just mention my name."

That's publicity, friendly publicity, co-operation and all good things in one.

If it's fine for the individual why not for the town?

Towns need publicity and good publicity, and publicity like charity should start at home. If we are sold on our town, if we believe in our town, if we are proud of our town, we are not like this man. He registered from his home town where he stayed at a hotel in the county seat, from the county seat town when he went to the state's biggest city, from the state's biggest city when he went to Chicago, and from Chicago when he visited New York city.

This can be the BIGGEST LITTLE TOWN in the country.

"I'm from Antioch. Haven't heard of it? Well, Mr. Blank, we're sort of proud of our city out our way." That's the attitude we should carry on our visits abroad.

Well, now, to carry that attitude abroad we must first develop it at home. Let's give our town a little internal publicity. Tell John Jones tomorrow about some good point of Pete Smith's that you just found out. And later in the day or the week, you'll find it coming back to you.

That's one form of internal publicity. Or tell us the good point and we'll put it in the newspaper. That's another form of internal publicity plus a little external as well.

And then when you go a-traveling, you'll have the good business, the good personal, the good residential points of our town at your tongue's tip to apply externally in selling this town to some one else.

A tear in the editor's shirt recently brought a shirt

factory to a Missouri town. The editor mentioned it to a shirt factory owner, one word led to another, the editor boosted the town, the shirt man spoke of plans for expansion and the deal was on.

We don't need to limit our boosting, our publicity, to the radio station pictured on this week's community page, if every signer on that page, every non-signing business and professional man, every reader, and every reader's relative here, and the friends of all ever got together in a meeting to see each other, we'd see right there we had many good points for publicity and many good reasons for publicity. So let's tell each other each other's good points, and when we mention a good point, don't stop at that, let's "Mention the Name" as well.

FARMING IN THE FUTURE

The influence of the "merger age" is at last reaching the farm. In the words of M. G. Thornburg, Secretary of Agriculture of Iowa, "The records of the past few years indicate that we are going to have fewer farmers, larger production and lower costs of production. This means continued improvement in efficiency per man."

Consolidated business farming can do more to put agriculture on a permanently stable basis than all the laws for artificial "farm relief," through price-fixing, ever devised.

THE COMING FOURTH

The Fourth of July will soon be here. And, according to the precedent set in other years, it will leave behind a toll of destroyed lives and property due to carelessness with fireworks.

Fireworks, except when used under proper conditions by experts, are a great fire hazard. Blindness, lockjaw, mangled limbs, fatal clothing burns, property damage and crippled bodies have always followed Fourth of July celebrations.

Many cities, and a few states, have prohibited the use of fireworks except in supervised public displays under permit from the proper authorities. It is unfortunate that our time-honored manner of enjoying the Fourth must be restricted—but conditions in our modern crowded cities are such that to promiscuously allow the use of fireworks is to court injury, death and destruction of property.

Children, especially, are endangered. Not a single Fourth has passed without a tragic waste of young lives throughout the country.

Make the Fourth "safe and sane. And when fireworks are used every possible precaution should be taken to guard against misadventure.

TREVOR GIRLS LEAVE FOR TOUR OF WEST

Mrs. Wm. Evans Is in Critical Condition Following Operation

The Misses Daisy and Myrtle Mickel left Saturday evening; Miss Daisy will spend a month with Mrs. Pat Eberts, Livingston, Montana; Miss Myrtle will join her father at Seattle, Washington. Enroute they will visit relatives in Minneapolis.

Mrs. William Evans was operated on for gall stones at the Kenosha hospital Saturday. She is under the care of two nurses and only her husband is allowed to see her.

Russell Jones, Kenosha, called on Miss Sarah Patrick Wednesday.

The Misses Lillian and Esther Burg of Tomah, Wis., visited at the Charles Oetting home Monday.

Mrs. Fred Forster, Mrs. John Rumpesky and Mrs. Ira Moran attended a stork shower for Mrs. Maleski at the August Pesch home, Pikeville, Thursday.

The largest cow sale of the season was held at the stock yards Saturday.

Mrs. Richard Corrin of Antioch and Mrs. Ambrose Runyard were entertained at the home of Mrs. John Holzshuh Thursday.

Allen Copper is enjoying an enforced vacation from his work in Chicago.

Miss Adeline Oetting, Karl Oetting and Fritz Bauer of Chicago were week-end visitors at their respective homes here.

Mrs. Samuel Mathews and daughters, Jeanette, Dorothy and Kathryn, of Silver Lake; Mr. and Mrs. Alfred Martin and daughter, Betty Jane, of Waukegan called on friends here Sunday.

Miss Gertrude Copper returned home Saturday after spending the past two weeks with her sisters, Mrs. William Smith and Miss Pauline Copper, Chicago.

Visitors Sunday from Kenosha at the Fleming home were: Mr. and Mrs. John Burns, Miss Frank Stewart, Mr. and Mrs. Ed. Elkerton and daughter, Elizabeth, and Mr. and Mrs. John Milward and son.

Mr. and Mrs. Wm. Kruckman and sons, Robert and James, Burlington,

called on the Patrick sisters Sunday.

The Messrs. Ed. Mutz, John Mutz, Jr., and Henry Mecklenburg attended a party at the home of Mr. and Mrs. Carl Switzer, Chicago, Saturday evening.

Mrs. Elizabeth Janks of Chicago visited at the home of her father, John Mutz, Sr., Sunday.

Mrs. John Gover and Mrs. Klaus Marks were in Burlington Tuesday. Mr. and Mrs. Albert Mutz and children of Chicago spent the week-end at the parental home.

Mr. and Mrs. Fred Forster and children and Mrs. Jos. Smith were in Kenosha Thursday.

Ralph Kennedy, Chicago, called at the Trevor Stock Yards Tuesday evening.

Henry Ernie and Elbert Kennedy were in Kenosha Tuesday.

Mrs. Laura Holtdorf of Antioch, called on Mrs. Joseph Smith Wednesday.

Mr. and Mrs. Joe Letzer, Sr. of Chicago were visitors here Tuesday.

Mrs. Frank Lasco and son, Elmer, of Powers Lake called on her sister, Joseph Smith and daughter, Mrs. Charles Oetting, Thursday evening. Arthur Edgar of Antioch was a caller here Friday.

Mrs. Julius Lingen and children of Burlington called on friends here Friday.

Mrs. Frank Leppeln of Hillside, visited the past week with Mrs. Fred Forster and family.

Mr. and Mrs. Joseph Smith visited from Saturday until Monday with the A. J. Baethke family at Forest Park.

Freddie Forster of Chicago spent the week-end with his parents, Mr. and Mrs. Fred Forster.

Mr. and Mrs. John Kouch and daughter, Ruth, of Chicago spent the week-end at the Mrs. Kate Van Osdal cottage. Mrs. Anna Kimmel accompanied them home to spend an indefinite time with her sister, who is in poor health.

Mr. and Mrs. Daniel Longman and children and Mr. and Mrs. Willis Sheen attended the Longman reunion which was held at the John Memler home Sunday. About forty-eight were present coming from Whitewater, Capon, Salem, Ingleside, Wadsworth and Wilmot.

Miss Mary Sheen returned to Chicago Sunday with her brother-in-law, and sister, Mr. and Mrs. Charley Miller, who spent the week-end with her.

Making the Readjustment

By THOMAS ARKLE CLARK
Dean of Men, University of
Illinois.

Some one has said that the chief value of education is to help one to meet the unexpected, to adjust himself to a new situation quickly and pleasantly. Whether or not education does give one this ability it is not for me to say, but it is a characteristic which should be cultivated whenever possible. Life brings

to many of us quick changes, sudden calls for an absolutely new routine of daily life. It is the wise and happy man who can make these readjustments without wrecking his life or ruining his happiness.

I have noticed that when men who have reached or passed middle life come up against disaster or are compelled by circumstances to change their occupations or alter the regular routine which habit has established, most of them are unhappy and many of them die quickly.

Cornell, who had been a banker all his life and who had made some money, retired a dozen years ago or so, determined to take life easy. Having sold his business there was nothing regular for him to do. He could sleep late in the morning; he could loaf in the afternoon; he could go to bed as soon as dinner was over. Nobody would be upset, no business enterprise would be interfered with. He was miserable; he could not make the readjustment. He endured the agony for a few years and then bought out another business and settled happily back into the old routine. Had he not done so I am sure life would have soon ended for him.

Snyder is much more adjustable. He meets a new condition without mental or emotional disturbance. Snyder's business is real estate; his avocation was a young girl upon whom his affections were centered and whom he expected to marry. The girl for a time maintained the same viewpoint. But women's minds are subject to change, and Snyder's fiancée ran into another man more to her liking and she gave Snyder the gate, so to speak, and married the other man. Was he perturbed? Did he grow pale and sink into a decline? Not he. The girl was, of course, a loss, but her marriage opened up a chance for business. The newly married couple would have to live somewhere. Snyder had just the house and the location which would be perfect for them. He hired him at once to his rival and sold him a cottage quite to the girl's taste in a new addition which he had just opened up. He had lost the girl, but he had put over a good business deal at an interesting profit. There was no cause to worry.

I was going to have a quiet evening on Thursday after a tiresome day. I should go nowhere; I should see no one; I should lie in an easy chair before the wood fire and read a detective story; I should go to bed at nine. But it didn't turn out that way. Mrs. Guyer was having a riot with her lodgers and wanted to talk it over with me; Green's appendix had gone on a rampage and he wanted me to

If the Truth Was Told

"NO LADY, I AIN'T HAD A HARD LIFE. I'M JUST A LAZY BUM. I'M ABLE TO WORK BUT WHY WORK WHEN I CAN GET A HAND-OUT? I'M NOT GRATEFUL FOR THIS FOOD 'CAUSE I'VE HAD BETTER"

West Point's Best

Cadet Capt. Paul F. Yount, of Alliance, Ohio, rated first of the list of 241 in the West Point graduating class of 1930. Besides being cadet captain, Yount served as managing editor of "The Pointer," the West Point paper.

Father Sage Says:

Being a good judge of character is worth something. One gets a better wife or husband by it.

see it out. One thing after another happened and I got no rest. It was midnight when I got to bed. Well, fortunately, I have learned happily to make the quick readjustment and still be happy.

WELCOME GIFT FOR TINY TOTS

For the baby or small child that has "simply everything," a welcome and inexpensive gift is always a pair of Hickory sock garters, which are sure to please his mother because of their usefulness, and His Majesty because of their parade of bunnies, elephants and other nursery motifs dear to the child's heart. For "dress up" there are also sock garters with silk shirred ribbons, and rosebud trimming.

In either case, it is always the quality of the elastic that counts. Inferior, unresponsive elastic that does not snap back will not wear nor keep the stock

ings smooth and tight over fat, active little legs. The sock garter should never be worn so tight as to shut off circulation or leave a mark on the tender flesh. If the elastic is of first quality, it will keep up the sock without being worn too snugly. When the garter has stretched as part of the natural wearing process, it is better to discard them and get another pair. And, of course, fastidious mothers keep on hand several pairs in various colors to complete the little one's ensemble.

DAINTY TEA APRON HELPS THE HOSTESS

Entertaining without a maid is partly a matter of systematizing one's work before the guests arrive, and partly one of remaining immaculate and unruffled in spite of trips to the kitchen when the refreshment hour comes around.

For the latter, nothing is of greater service than one of the dainty little Hickory tea aprons of gum rubber which now can be had in a variety of

smart, becoming styles, and a veritable rainbow of colors and color combinations. Slipped on and off in a jiffy, this type of tea apron will not ruffle the hair nor crush the dainty frock underneath. No water or grease can come through, and it requires only the services of a damp cloth to render it spotless when the party is over.

Also, the woman who does fine sewing or needlework which must be kept immaculate will find it helpful to keep a Hickory tea apron with her work exclusively for slipping on while she is working on dainty, fragile materials.

STURDY WAISTS FOR ACTIVE YOUNGSTERS

Dressing the children sensibly suggests having them wear as few separate garments as possible. This not only saves washing and expense, but what is most important, means greater freedom of movement, and free circulation of air around the body. A Hickory pantie waist, drawers or bloomers and, for the girl, a little frock, and shorts and blouse for the boy, are all the healthy child needs except in the most severe weather, when knit underwear may be worn.

The pantie waist is the key garment, so to speak, of the child's outfit. To this the garter is fastened, and drawers, shorts, bloomers and skirts buttoned. For this reason sturdy materials and strong, unbreakable bone buttons, securely taped on, are necessary features. In selecting the waists one should note also that the essential parts are double stitched, that the stout tabs or patent pin tube attachments are provided for the garters.

Out is also an important part of the waist. The arms must be full cut to avoid binding and the front and neck sufficiently low not to show above the outer garments.

When buying the children's clothes, see that they are the kind they can easily get in and out of themselves.

New Ideas In Sandwiches

By CAROLINE B. KING

SANDWICHES, sandwiches—Is there any time or place or season when they are not in demand? I like to have plenty of material for making them on hand for one never knows when some party or picnic or hike or dance may turn up.

Tongue sandwiches are quickly made from the ox tongue which comes all packed in glass jars and ready to use. Slice it thin, spread it delicately with mustard or horseradish, and place between slices of buttered white or whole wheat bread. Or try pickled lamb's tongue for a change, they are also to be had in glass jars.

Boned chicken in glass cooked and ready for slicing makes wonderfully good sandwiches, and there is absolutely no waste. Dip each thin slice in mayonnaise, place a leaf of lettuce over it and make the sandwich in the usual way.

Ginger Marmalade sandwiches are so tempting. Blend cream cheese with the ginger marmalade and spread the paste between thin slices of buttered graham bread.

Make Orange Marmalade Biscuit sandwiches by rolling biscuit dough an eighth of an inch thick, spread half of the rounds with marmalade, cover with other rounds and bake in a hot oven.

CHANNEL LAKE COUNTRY CLUB NEWS

The members of the Channel Lake Country club will be pleased to know that our "pro", Joe Paletti, was among the low scores to qualify for the U. S. Open Golf Tournament at Briarcliff on Monday. We hope he will go through to the finish.

Another rainy Sunday brought disappointment to many week-enders, as comparatively little golf could be played. However, some of the enthusiastic members went the rounds in the rain, and a few matches were played off.

The opening card party of the season for the ladies will be on Tuesday, June 24th, at the club house. Lunch-

eon will be served at one o'clock daylight saving time, or twelve o'clock standard time, and will be followed by the usual game of cards. Mrs. Ernest Brook, chairman, and her committee, Mesdames Smyth, Arms, and Cooper, will have charge of these weekly parties during the summer season. The ladies bridge tournament will run during July and August.

A Capelet Frock

Capelet frocks solve the summer wardrobe problem. The one shown here is a red and white print crepe that displays a chic shoulder cape.

Hints For Homemakers

By Jane Rogers

INDISPENSABLE furnishings in a well-regulated kitchen are accurate scales and measuring utensils; a pair of shears to be used only in the preparation of foods; and, since the success of so many dishes depends upon correct timing, a reliable clock such as one of the new electric kind that plug into the wall and can't go a second off without showing a warning signal.

The use of a small amount of sugar, much as we use salt and pepper, mitigates the harsh taste of many foods without sweetening them. Used in the preparation of meat sauces and gravies, it accentuates the various flavors, binds them into a harmonious whole, and improves the color.

JOB Printing Quick Service

if you want it—reliable service always. We always place our guarantee of satisfaction back of every printing job we do. We are good printers—know it—and are willing to back our judgment with our guarantee.

COLOR PRINTING

WHEN our experience suggests the use of colored paper, colored ink or a combination of the two for the job you submit, we aid toward increasing possible returns, we tell you so. If white paper and black ink are best, we suggest them.

Summer Care of Heating Plant Explained by Smoke Official

Chicago.—A thorough "going over" of the home heating plant in preparation for the next heating season and the use of a smokeless fuel, are urged by Frank A. Chambers, chief city smoke inspector, in his instructions issued to householders for the care of their home heating plants during the warm months.

Smoke, Mr. Chambers pointed out, is a serious health hazard. He said neglect of heating plants helps to produce more smoke. His instructions for the care of heating plants in the summer are:

"See that the ash pit, grates, tubes and all gas passages are clean. Clean thoroughly the smoke pipe connecting the heating plant and chimney. Clean out the chimney. This will improve the draft as well as prevent smoke from backing out of the heating plant into the basement, which usually causes the living rooms above to fill with smoke.

Points Out Fire Hazard.

"The smoke pipe or breeching should be examined thoroughly for leaks, and if rusted badly or leaking should be repaired or a new one installed. Defective flues often cause fires where the plaster above falls off, exposing woodwork to the flame coming through cracks in the pipe or masonry.

"Examine the grates and see if any sections are burned out. Burned out grates cause holes in the fire, resulting in a loss of heat and a fuel waste. Be that grates shake properly and return to a level position. Adjust

dampers so that it opens full and closes properly. Fill all cracks with fireproof cement or stove putty. Air leakage causes the fire to draw poorly and increases the fuel consumption. See that all out doors on the chimney, in boiler or furnace, close air tight.

For Care of Heating Plant.

"If the basement or boiler room is damp during the summer cover the outside surfaces with a coat of preservative paint or a mineral oil that will prevent rusting."

Tests have shown, according to the Holland Institute of Thermology, Holland, Mich., that a quarter inch of soot, a nonconductor of heat, on the heating surface, requires 50 per cent more coal than is necessary if the boiler surfaces are clean.

The most efficient means yet found for cleaning the heating plant and chimney is a huge vacuum cleaner which comes mounted on an auto truck and in which a motor driven fan provides powerful suction. This machine, operated on the same principle as the household vacuum cleaner, sucks the dirt and soot out of the most remote and inaccessible parts of both heating plant and chimney, drawing the soot and dust into an enormous dustproof bag. No dust is raised in the house and there is no aftermath of grimy dirt in the basement or on the walls or lawns. The additional advantage is that it usually includes a thorough inspection service which reveals existing defects in chimney and heating plant itself, and enables repairs to be made during the summer months.

WE CAN GIVE YOU
what you want
IN PRINTING
when you want it!
Try us out with your next job

**Dividend Printing**

There is one kind of printing that you want—printing that pays a dividend on the investment.

A letterhead with right sort of type properly balanced is a real business asset. It wins the approval of the person receiving your letter, and while he is in this frame of mind your letter is read.

The same reasoning applies to any other job of printing. Neatness, the right weight and kind of paper, the color of the ink, the selection of the type, all play an important part in the production of dividend printing.

We are equipped to give you that kind of printing. Let us prove it to you.

After the First Twenty-five Thousand Miles

THE VALUE of sound design, good materials and careful craftsmanship is especially apparent in the new Ford after the first twenty-five thousand miles. Long, continuous service emphasizes its mechanical reliability and economy of operation and up-keep.

As you drive the Ford through many months and years you will develop an increasing pride in its appearance and a growing respect for the substantial worth that has been built into it. From every standpoint—in everything that goes to make a good automobile—you will know that you have made a far-seeing, satisfactory purchase.

Wherever you go, you hear enthusiastic praise of the car and this significant, oft-repeated phrase—"I'm glad I bought a Ford."

A FORD owner in New York tells of a 13,000-mile trip across the United States and back in sixty days and says "the car was extremely economical to operate, comfortable and speedy." A grateful father tells how the Triplex shatter-proof glass windshield saved his wife and children from serious injury.

To test tires, a large company drove a new Ford day and night, for an average of 500 miles every twenty-four hours. It was still giving satisfactory service after 105,000 miles.

A Ford car that had fallen into Fernan Lake was submerged for twelve days before being raised. After a new battery and carburetor bowl were installed, it was driven back to Spokane under its own power.

Many police departments have written of the special advantages of the Ford in crowded traffic because of its alert speed, acceleration, and ease of control. An increasing number of fleet owners are also purchasing the Ford because their cost figures have given conclusive proof of its economy of operation and up-keep.

In addition to important triumphs in Germany, France and Italy, the Ford won six out of seven leading places in a contest in Finland, first and second in the Rafaela races in Argentina, first and second in the

run from Copenhagen-to-Paris-to-Copenhagen, three gold medals in England, first ranking in the durability test over the tortuous Amancaes road in Peru, and first place in the 1930 reliability run conducted by the Royal Automobile Club of Sweden.

This contest was an exceptionally severe test of endurance and sturdy construction because it was held in the dead of winter and covered 600 miles of steady running over snow-covered country roads and mountainous hills.

CARD PARTY

The ladies of St. Peter's church will give a card party Wednesday night, June 25, at 8 o'clock, in the new church hall.

They didn't realize it cost so little. Gamble's House Paint goes as far—covers as well—it's guaranteed, \$2.30 per gallon in 5 gallon lots. Next to First National bank on 6th street, Kenosha.

CHOOSING AN OCCUPATION

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Jim is eighteen and very much in love—or at least that is what he thinks is the matter with him.

There is only one girl in the world for Jim. Being a Presbyterian, he is thoroughly convinced that long before the creation of the world, when the whole universe was in a state of chaos, it was foreordained that ultimately he and Ruth should be created for each other.

If by some misstep he had failed to meet her, he is sure that he would have gone through life alone, disconsolate, or if otherwise mated, unhappily and unsuccessfully so. He does not realize that possibly twenty years from now he will have difficulty in recalling her name, and when it does come back to him the memory will not stir in him the slightest emotion. There are whole counties full of girls who would make Jim as happy as Ruth does if he could only meet them and who would make him as happy as she who he will finally marry will do.

There are thousands of young people who feel about their jobs as Jim does about his girl. They have special talents, they think; they are designed by nature to do a certain job and if they should fail to get into that particular position in life it would mean complete and hopeless ruin for them. It is because this idea is so prevalent that we hear so much today concerning vocational guidance—so very much in fact that we might well believe that every man and woman is designed for some specific profession or occupation, and if by any unlucky chance he should fall into something else he will meet his professional Waterloo.

I meet young fellows every day who are so much concerned about what they are best fitted for in the way of a life work, so eager to find some branch of learning or education or some occupation that will be suitable and pleasing to them—not to say easy—that they do nothing well or with any particular interest. Fearful of not doing the right thing, they neglect what opportunity is before them.

Now the fact is, as I have watched young people come and go for the last forty years or more, the average normal person could do one sort of work about as well as another if he would only set himself to it. Lloyd was brought up on a farm and would have made a very good farmer if he had set himself to it. As it was he studied engineering when he went to college and was elected to an honorary engineering society in his senior year. He is not an engineer today but a banker who goes about the country telling people who know less than he does how to run their banks. I haven't the slightest doubt that if he had so chosen he could have done just as well in medicine or law as he is doing as a banker.

It seems to me it doesn't so much matter what occupation a man chooses as it does how he goes about what he chooses.

CHRISTIAN SCIENCE CHURCHES

"God the Preserver of Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 15.

The Golden Text was, "Let integrity and uprightness preserve me; for I wait on thee. Redeem Israel, O God, out of all his troubles" (Psalms 25:21, 22).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Lord is the portion of mine inheritance and of my cup. . . . Thou wilt show me the path of life; at thy right hand there are pleasures for evermore" (Psalms 103:1, 11).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty, and holiness. Life is eternal. We should find this out, and begin the demonstration thereof. Life and goodness are immortal" (p. 240).

Services for Sunday, June 22—

Mrs. Myrtle Klass will be an acting officer filling the station of "Martha" at a meeting of the Grayslake Eastern Star chapter tomorrow night.

Mrs. Jean Ferris was acting matron at a meeting of the Millburn Eastern Star lodge Monday night, and officers of the local chapter acted as her escort. About 25 Antioch members were in attendance.

Roy Twing of Kewanee, Illinois, has accepted a position at the Chain O' Lakes Laundry. He is employed as washer.

Arthur Verrier is back at his post in the King drug store for the summer.

Miss Jean and Ray Van Patten attended the graduating exercises of their cousin, Miss Willa Van Patten in Kenosha Friday evening.

Miss Daisy Richards is back at her duties in the post office after a 15-day vacation.

Morning worship at the Channel Lake Pavilion at 9:00 o'clock. Sunday school at 9:30. Morning worship at 10:45. There will be no evening service.

The Epworth League meets on Tuesday evenings during the summer. This week the meeting was held at the Hennings home, with Lloyd Wetzel as the leader. The Sunday school board had its monthly meeting on Monday night. The Thimble Bee society meets this week with Mrs. Sam Straghan Wednesday afternoon. The choir will rehearse Wednesday evening at the church. The boy scouts of troop 81 will meet Thursday night at 7:30. Chief Warren Blodgett of Waukegan will be present. The troop committee is also invited to be present. On Friday night our scouts will take an overnight hike and return Saturday. The officers of the Lake County W. C. T. U. will conduct an institute at our church Friday. The program will begin at 9:30 a. m., and continue until adjournment in the evening. A pot-luck dinner will be served at noon. Let us do our part in making this institute a success by attending a part or the whole of the program.

On Saturday evening some of our Leaguers will attend the "Geneva Rouser Rally" which will be held at the Lake Forest Beach. A picnic supper will be served and the camp fire speaker will be Mr. Sam Stagg of Manila, the Philippine Islands. Every Leaguer who can possibly attend this should do so.

CLEAN HEAT PLANT CUTS REPAIR COST

Accumulation of Soot Found to Constitute Serious Fire Hazard.

For safety and economy, the heating system should be cleaned each spring as soon as the heating season is over, says the Holland Institute of Thermology of Holland, Mich. Ashes, soot and dust should be removed from chimney heater and flue pipe, and heat ducts and cold-air returns should be clean and free from obstructions. If the heating plant is not thoroughly cleaned when the fire is discontinued, soot and ash particles which absorb moisture from the air, corrode or rust the inside of the flue pipe, reducing its thickness beyond the point of safety before the outside surface

Removing Soot Accumulations From the Chimney Is No Longer a Dirty, Messy Job. A Giant Vacuum Cleaner More Thoroughly Cleans the Chimney Than Is Possible by Hand.

shows indications of damage. Accumulations of soot in the chimney constitute a serious fire hazard as soot is a condensed fuel which burns with a high degree of heat when ignited by hot sparks carried upward by the draft. Soot in the furnace is an enemy of heating as it is a non-conductor of heat, acting as an insulating material if allowed to gather on heating surfaces. Heating engineers have found that a "lining" of soot only one-eighth inch thick will reduce a plant's efficiency more than 25 per cent.

A giant vacuum cleaner, one of the new marvels of the mechanical age, has supplanted the unsanitary chimney sweep as a means of cleaning the heating system, and it does what has heretofore been a dirty job, quickly, thoroughly and without mess. The cleaner is mounted on an automobile truck and a motor-driven fan provides a powerful suction which is applied through a long flexible pipe attached to openings in the chimney and heating plant. This machine sucks the dirt and soot out of the most remote cracks and crevices and cleans the connecting pipes, blowing the soot and dust into an enormous dust-proof bag. The housewife appreciates the cleanliness of this method as it does not "raise a dust" in the house, nor is there an aftermath of grimy dirt in the basement or on the walks and lawns.

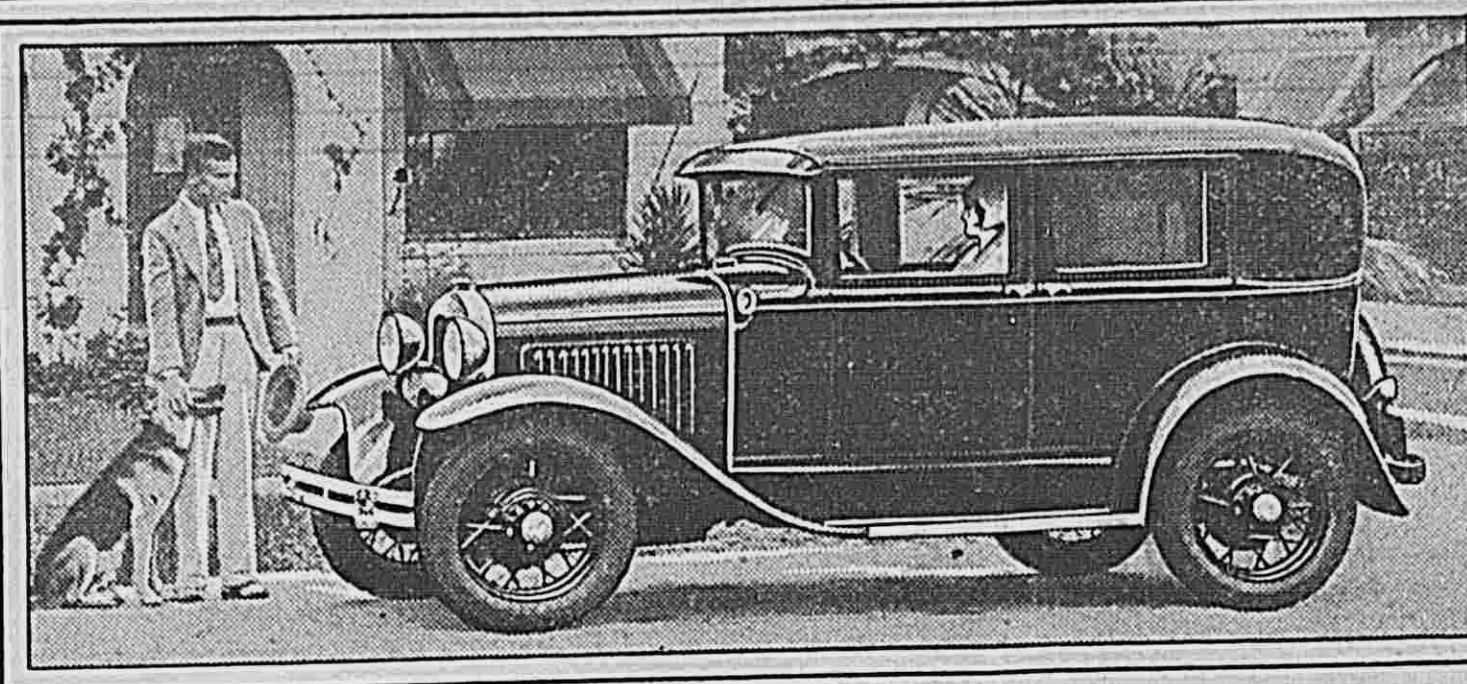

This system of cleaning heating plants is now available in most of the larger cities and towns. Home owners will be more sure of a first-class cleaning job by engaging cleaners whose equipment includes the powerful, motor-driven suction fan. This service usually includes a thorough inspection which will reveal any existing defects in the chimney or the heating plant itself, enabling repairs to be made during the summer months. The saving in fuel due to the increased efficiency of the plant more than pays for the cleaning, to which is added the benefits of cleanliness for walls, furnishing and wearing apparel and the virtual elimination of the residence fire hazard.

BRISTOL

The twenty-fifth wedding anniversary of Mr. and Mrs. A. E. Scoville of Kenosha was celebrated at the home of her parents, Mr. and Mrs. George Tillotson at Pikeville Sunday. Those who attended were Mr. and Mrs. Emmett King, daughters, Grace and Mariellen, and son, Wilson, of Hickory; Miss Grace Tillotson, Mr. and Mrs. Harry Tillotson and daughter, Cary, of Pikeville; and Mr. and Mrs. Charles Curtis, Clare and Lynn, the Raymond Bishop family of Kenosha, Mr. and Mrs. Leslie Lease, daughters, Dorothy and Geraldine, Mr. and Mrs. J. P. O'Hare and children of River Forest, Frank Tillotson, of Coconut Grove, Florida. The honored couple were married 25 years ago by Rev. Sizer, pastor at that time of the Bristol M. E. church. They were presented with several pieces of silverware and other gifts. A fine dinner was served. The home was beautifully decorated.

Ford Offers New De Luxe Sedan

Ford De Luxe Sedan

THE De Luxe Sedan, recently added to the Ford line, is designed for those who desire distinctiveness and unusual comfort in an automobile. The interior is inviting and roomy with wide doors to both compartments. Absence of rear quarter windows gives the car a striking individuality and affords privacy to the occupants.

Interior trimmings and appointments are luxurious. Upholstery is either in brown mohair or a deep tan Bedford cord patterned after that used in high-priced cars.

Other refinements include arm rests for the rear seat, mahogany finished garnish mouldings on the windows and beneath the windshield, flexible robe rail and hardware in an attractive pattern.

The front seat is adjustable within a range of four inches to suit the convenience and comfort of the driver. It is moved quickly and easily by a small, inconspicuous handle in the front center of the seat just above the floor.

The De Luxe Sedan, like other Ford body types, can be obtained in any one of several color combinations.

Giants Get Hugh Critz

Hughie Critz, recently traded by the Cincinnati Reds to the New York Giants. The Reds got Pitcher Bentley in exchange.

SUMMER COMFORT SECRET REVEALED

Are you going to suffer weary, sleepless nights during the forthcoming hot months of July and August, or are you going to be one of the fortunate few who even though they do not have a summer cottage alongside a cooling lake, will enjoy comfort and refreshing sleep though the night be torrid and sultry? queries the Holland Institute of Thermology.

Cool, comfortable sleeping rooms regardless of weather conditions are no longer an idle wish of those who have homes of their own equipped with what heating and ventilating engineers have styled air-conditioning systems. These are nothing more or less than the latest type warm air heating systems that function in such a manner as to render owners year 'round service and year 'round comfort.

In summer they produce indoor comfort by means of an electrically operated air propeller unit installed in the top of the furnace jacket. In operation, the effect of this fan is to produce a definite yet draftless current of air that circulates through the

The Operation of the Air-Propeller Unit in Heating Plants of the Vapor-Air Type Eliminates the Sultry, Stuffy Atmosphere That Characterizes Bedrooms on Hot Nights.

house by way of the heat ducts and the cold air returns. This gentle air motion suffices to carry away bodily heat and moisture, and the sensibility of comfort thus produced is equivalent to a drop in temperature of 15 to 20 degrees, though in actuality the decrease in temperature is but two or three degrees.

The comfort factor is further augmented by the elimination of pockets of stagnant air so oppressive and stifling in muggy weather. During the heating season, the function of the air propeller unit is to uniformly distribute warmed air throughout the house. In this respect it is highly efficient, as it virtually eliminates the wide differences in temperatures at ceiling and floor levels so generally characteristic of artificially heated homes.

Though standard equipment with warm-air systems of the humidifying or vapor-air type, the design and construction of the air propeller units is such that they may be installed in most types of warm-air heating systems now in use.

SALEM MAN IS INJURED WHEN LADDER FALLS

Hard Time Social Nets Large Sum for Priscilla Treasury

Lloyd Henslee was on a six-foot step ladder Thursday wiring the new filling station being built for Eugene Hartnell, when the ladder was accidentally upset by one of the workers throwing him down landing on the cement near the gasoline tanks. He broke his left elbow in two places. He went to Dr. Fletcher's office and later removed to the Kenosha hospital where the arm was set. He returned to his home that night.

The Hard Time social held at the church Friday evening brought in a fine amount to add to the Priscilla's treasury. The evening was spent in playing Rook and Touring. Lunch was served.

John Shade and Howard Johnson spent from Friday until Sunday night in Chicago.

Mr. and Mrs. Louis Jarnigo and Mrs. Kate Jarnigo and Mrs. Herman Schonscheck spent Wednesday evening with Mr. and Mrs. Lawrence Jarnigo of Kenosha.

Mrs. Herman Fox and daughters and Mrs. Yanke of Madison spent Thursday and Friday with relatives here.

Mrs. Susie Manning, who has spent the past few months in Kenosha with her daughter, came out Friday to spend the summer with Mr. and Mrs. Lloyd Henslee.

Mr. and Mrs. Cecil Sova of Kenosha spent Sunday with Mr. and Mrs. Byron Riggs.

A large crowd attended the Children's Day program at the church on Sunday morning. A fine program of recitations, songs and group numbers were given.

Mr. and Mrs. Henry Mutter entertained Mrs. Carrie Madden, Mr. and Mrs. Mike Semlar and family, John Madden and Anthony Semlar at dinner Sunday.

Miss Frances Lindow of Lake Geneva spent the week-end with Mr. and Mrs. George Belmer.

Mrs. Paul Romanek (nee 'Ruth

Louis) of Milwaukee and Mrs. Cecil Sova of Kenosha attended church at Salem Sunday morning.

Rev. and Mrs. Henslee of Chicago drove up Friday morning to see their son, Lloyd Henslee, returning Saturday morning.

The Priscillas will hold a regular meeting with Mrs. Spencer Cull on Thursday, June 19.

Mr. and Mrs. Orville Riggs spent Sunday evening with Mr. and Mrs. Frank Johnson and Mr. and Mrs. Robert Imrie.

Mrs. Louis Johnson left Sunday night on the excursion from Kenosha to Washington D. C.

Dorothy and Barbara Ward, Mrs. Ruth Ward and friend of Kenosha called on Mr. and Mrs. Lloyd Henslee Sunday evening.

Rev. and Mrs. Stromberg of Connecticut came Friday to spend a few days with his brother, Rev. Carl Stromberg and family.

KONJOLA ENDS MISERY: TWENTY POUNDS GAINED

Lady Is Glad To Tell The World What New And Different Medicine Did For Her

MRS. BERTHA GUINEY

In case after case, even where all else tried has failed, Konjola, the new and different medicine, brings swift and complete relief. Consider, as an example of Konjola's 32 ingredients at work, the experience of Mrs. Bertha Guiney, Coal City, Ill., says:

"After birth of my daughter I was in a very weakened condition and constipation filled by system with poisons. For two years I tried any and all medicines recommended but I became steadily worse. Finally my mother urged me to try Konjola. Well, six bottles of Konjola rid me of my troubles, improved by health and strength and I have gained twenty pounds in weight. I make this statement without any remuneration whatsoever, hoping it may benefit someone else in ill health."

Konjola is the most talked of medicine in America simply because it makes good. There is a reason why seven million bottles of Konjola were used in two years. The reason is that Konjola gives results, and results are what sufferers need and want.

Konjola is sold in Antioch, Ill., at S. H. Reeves' drug store and by all the best druggists in all towns throughout this entire section.—Adv.

MILLBURN GIRL GRADUATES WITH HONORS AT BELOIT

Young People Attend Summer Conference at Tower Hill

Mr. and Mrs. D. H. Minto and children motored to Beloit, Wis., Monday and attended the commencement exercises of the college, where their daughter, Ruth, graduated with honors in a class of sixty-four. Mr. and Mrs. Pierstorff and daughters, and Mrs. J. S. Denman, Mr. and Mrs. C. E. Denman, Mrs. W. A. Bonner and Mr. and Mrs. Gordon Bonner and daughters also attended the exercises.

Six young people, Alice and Bernice Bauman, Ruth Edwards, Ethel McGuire, Kenneth Denman and Richard Martin, from Christian Endeavor society, left Wednesday for Sawyer, Michigan, where they will attend the Tower Hill summer conference for one week.

Mrs. George Gerrity of Mukwonago, Wis., spent several days at the John Elchinger home recently.

The quilt display sponsored by the

June committee of the Ladies' Aid last Thursday was a great success. Over seventy quilts, old and modern, were shown. A short program was given and supper was served to about 100.

Mrs. Thomas Anderson and Mrs. W. B. Stewart of Waukegan spent Thursday with Mrs. E. A. Martin and attended the Ladies' Aid meeting.

The alumni of Millburn school with Miss Madalyn Sheehan enjoyed a day's outing last Thursday, with a picnic dinner at Lake Forest and a theatre party in Waukegan.

Mrs. Dalrymple, Lake Villa, spent the past week with Mrs. H. E. Jamison.

Mrs. Eva Ahling spent the past week in Chicago.

SLEEP ON RIGHT SIDE BEST FOR YOUR HEART

If you toss in bed all night and can't sleep on right side, try simple glycerin, saline, etc. (Adlerika). Just ONE dose relieves stomach GAS pressing on heart so you sleep sound all night. Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisons you never knew were there. Relieves constipation in 2 hours. Let Adlerika cleanse your stomach and bowels and see how good you feel! S. H. Reeves, druggist.

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

Announces its ninth

REDUCTION in RATE for RESIDENTIAL ELECTRIC SERVICE

On AUGUST 1st, 1930, the Following Reduced Rate will be in effect for Residential Customers:

8c	net per kilowatt-hour for electricity used in any month equivalent to or less than the first 4 kilowatt-hours per room;	5c	net per kilowatt-hour for additional electricity used in the month equivalent to or less than the next 4 kilowatt-hours per room;
7c	net per kilowatt-hour for additional electricity used in the month equivalent to or less than the next 4 kilowatt-hours per room;	3c	net per kilowatt-hour for all electricity used in the month in excess of the equivalent of the first 12 kilowatt-hours per room.

This, the ninth reduction in electric rates since the Company's organization in 1911, is made possible through the increased usage of electricity by our residential and commercial customers, and through the increased efficiency of Central Station operation. This new reduced rate affords you the convenience and luxury of additional electricity for your home for the same money.

About the new rate —

This new rate will bring a saving to residential users of electricity supplied by the Public Service Company of Northern Illinois of about \$1,117,000.00 during a period of twelve months.

This saving will be effected in two ways: first, through a reduction in the rate to 8c, 7c, 5c and 3c (net) per kilowatt-hour, according to the amount of electricity used; second, by computing the first rate, second rate and third rate kilowatt-hours on the number of rooms, instead of on the number of sockets which has been the practice heretofore.

The new rate is a more simplified form of charge for electricity. Since the number of sockets is not considered in the computation of charges, residential customers may have an unlimited number of outlets for increasing lighting facilities and for using an unlimited number of ordinary domestic appliances. Bills will be computed on the basis of the number of rooms and the number of kilowatt-hours consumed.

A residential survey has been made to determine the number of rooms upon which the charges will be based. The Company will from time to time continue to make such surveys in order to keep accurate records of the number of rooms.

The new rate schedule does not cancel the old rate for residential service. Should any customer, after trying the new rate, be disposed to have his charges computed under the old rate, the Company will do so upon request, providing the request is made before February 1, 1931.

Reduction in Commercial Rate

Effective on the same date as the reduction in rate for residential service, there will also be available a new light and power rate for small commercial users, such as stores, shops and offices. For the majority of such customers this new commercial rate will effect a reduction in the cost of electricity over a year's period.

A detailed schedule of these rates is on file at every office of the Company.

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

Serving Electricity and Gas to the Metropolitan Area into which Chicago is Growing.

WILMOT GRADUATES RECEIVE DIPLOMAS; SIX FINISH COURSE

Commencement Speaker
Makes Interesting Ad-
dress at Exercises

LONGMANS MEET IN REUNION

Graduates Enjoy Class Day
Class day exercises were held by the Wilmot high school Tuesday evening of last week at the Wilmot gym with all six graduates taking an active part.

The pictures of the graduates were flashed on the screen with Iola Harm, a member of the class, giving a description of the personality of each. In addition to Miss Harm, the graduating class included Myrtle Davis, Adolph Flegel, John Freeman, Frederick Gillmore and Irene Haase.

Irene Haase read the Class History and Myrtle Davis the Last Will and Testament of the class. Adolph Flegel had a clever way of presenting the class history and the graduation exercises were presented by the class.

Frederick Gillmore presented a spade on behalf of his class to Marjorie Van Lier of the junior class for having the highest scholastic average, and John Freeman presented a large wooden spoon to William Bernhoff, also on behalf of the class, for being the best looking and best dressed young man in the school. Both are time honored customs of school handed down from year to year. The program was closed with a comedy in two acts, a parody on a butcher shop, presented by the class.

Commencement Speaker Gives Interesting Message
Professor Wadlin McNeel of the University of Wisconsin, gave the commencement address to the graduates of the Wilmot high school at the annual graduation exercises of school in the Wilmot gym Thursday evening.

Prof. McNeel's talk, "These Children of Ours," has proved itself a singularly popular one in the more than 200 times it has been given before audiences throughout the country. In it, he expressed his sympathy and belief in the children of today. The misdeeds for which they are criticized by the older generation, he laid to the parents saying the children are just what their parents have made them. He also added that the older generation is wont to forget the indiscretions of its own youth. In his advice to parents, he stressed particularly that fact that children should be taught to do what is right through a sense of their own of what right and wrong. They should not be taught to do things merely for the sake of the law but should understand the underlying principle for which the law was made.

The stage was effectively decorated in blue and gold, the class colors, to represent a sunrise, and incidentally to illustrate the class motto, "Sunrise, Not Sunset."

The program opened with a processional of the graduates, music for the march being played by Miss Myrtle Thelsson. The Salutatory address "Alls Well That Ends Well" was given by Adolph Flegel. Miss Iola Harm gave the Valedictory. Other program numbers included a group of selections by the High School Chorus directed by Chris Nelson, the class song; violin solos by Holgar Jensen and the recessional.

The diplomas were presented to the six graduates by M. M. Schnurr, principal of the school.

Longmans Meet in Reunion
Forty-eight friends and relatives gathered Sunday at the John Memler home for the annual reunion of the Longman family. They are all descendants of John and Ann Longman, deceased, who came to America from England in 1853 on their wedding trip. Mr. and Mrs. Longman decided to remain here and settled near Silver Lake on a farm, now the Charles Loth farm. Later they moved to a farm near Trevor, now known as Rooney Dells.

Four of their children were present: Mrs. Walter Runyard, Wilmot; Dan Longman of Trevor; Mrs. M. R. Neff and Foster Longman of Walworth. Two other daughters, Mrs. James Barnstable and Mrs. William Barnstable of Chetek, Wis., were unable to attend.

Those present at the gathering were: Mr. and Mrs. W. J. Runyard and Howard; Mr. and Mrs. Paul Brinkman, Wilmot; Mr. and Mrs. Dan Longman, Russell and Bernice; Mr. and Mrs. Willis Sheen, Trevor; Mr. and Mrs. James Cragg and family of Ingleside; Mrs. Clara Felter, Antioch; John Moyses and family from Whitewater; Mr. and Mrs. Will Riggs and Carol; Mr. and Mrs. Byron Riggs, Salem; Mr. and Mrs. M. R. Neff and Evelyn Neff, Mr. and Mrs. Foster Longman, Mr. and Mrs. Geo. Weiss, George, Jr., and Arlene, Mr.

Europe's Greatest Matchmaker

Here is Mrs. Margaret Bornstein of Berlin, who is called the "greatest matchmaker of the continent." She began her "job" in 1898 and has handled about 4,000 marriages to date.

Exclusively for Child Worshipers

In the Cathedral of St. John the Divine, New York city, there has just been completed this "Children's Corner." It has a small altar, prayer desk, flowers and Biblical stories, and will be for the exclusive use of child worshipers.

and Mrs. Lyle Longman and Dorothy of Walworth; Mrs. Eva Logan of Capron, Ill.; and John H. Memler, of Bristol.

Celebrate Silver Wedding

Messrs. and Meses. Ray Bufton, Harry McDougall, Gene McDougall, Alfred Reynolds, George Bruel, Russell Bruel, Mrs. F. Westlake and Mrs. F. Pribnow and daughters attended the silver wedding anniversary of Mr. and Mrs. Ralph Gardiner at Browns lake Saturday evening. Mr. and Mrs. Alfred Reynolds were the attendants at the wedding of Mr. and Mrs. Gardiner.

Mrs. Herman Lavernz of Algoma is visiting her sister, Mrs. August Holtdorf, who is ill.

Miss Myrtle Thelsson, a member of the Wilmot high school faculty was married Memorial day to Dr. David Reuhlman of Clyman, Wis. Dr. and Mrs. Reuhlman will make their home for the present at Madison where he is connected with the Madison General hospital.

Lyle Pacey spent Sunday in Milwaukee with relatives.

Doris Ganzlin and Ruth Pacey left Monday with the Wisconsin Teachers' excursion on a trip to Washington D. C.

Mrs. Stanley and Margaret Stoxen made a motor trip from Saturday to Monday to Winthrop, Iowa.

Sunday guests of Mr. and Mrs. A. C. Stoxen were Mr. and Mrs. Glen Dorwin, Mrs. Natalie Strupe, Arthur Stoxen of Wauconda and Mr. and Mrs. E. Thomas of Greenwood.

Wm. Lieske left for Madison and Eau Claire, Monday. Mr. Lieske has enrolled for summer school work at the University starting Monday.

Mr. and Mrs. Arthur Kraemer left Friday for Evansville, Wis. Mrs. Kraemer will remain in Evansville for the summer months and then join Mr. Kraemer at Los Angeles, California, where Mr. Kraemer has accepted a position with a printing office, which he left to fill this week.

Silver Lake defeated the Wilmot Pirates 7-2 at the Wilmot Park Sunday afternoon, thus evening both teams' League standings. The teams will meet again this coming Sunday at the Silver Lake park. An immense crowd was out to watch the game.

Mrs. I. Schnurr of Campbellsport is a guest of Mr. and Mrs. M. M. Schnurr this week.

Rev. J. Brasky baptized the infant son, Robert Eugene, of Mr. and Mrs.

Raymond Rudolph Sunday. Grace Carey and Irving Carey were sponsors.

The M. E. Ladies' Aid met in the church parlors Wednesday afternoon. Rev. Jedele christened the infant daughter, Margery Mabel, of Mr. and Mrs. Austen Stoxen at the Stoxen home Sunday. Mrs. Lloyd Stoxen and Arthur Stoxen, Sr., were sponsors. A number of relatives were entertained at a dinner in honor of the occasion.

Mr. and Mrs. Harold Boulden, Mrs. Fred Boulden, of Burlington, and Mr. and Mrs. Oliver Mathews of Antioch called at the Boulden home Sunday. There will be English services at the Lutheran church at ten o'clock on Sunday morning.

A number of friends and relatives surprised Mr. and Mrs. John Rausch in honor of their wedding anniversary Saturday evening. Guests were Mr. and Mrs. John Hilbert, Mr. and Mrs. Nick Hilbert, Salem; Mr. and Mrs. Joe Selear, Bristol; Miss C. Friedhoff of Kenosha and Mr. and Mrs. John Friedhoff of Trevor.

The following members of the 4-H club will attend the Madison club en-

DIPPING INTO SCIENCE

Why Birds Do Not Get Lost

The migration of birds, even across seas, is often explained as "instinct," but it is more than that. Their uncanny ability to find their way from their winter to summer home, and vice versa, is said to be due to the training of the young birds by the older ones, and to the keen sense of direction possessed by birds.

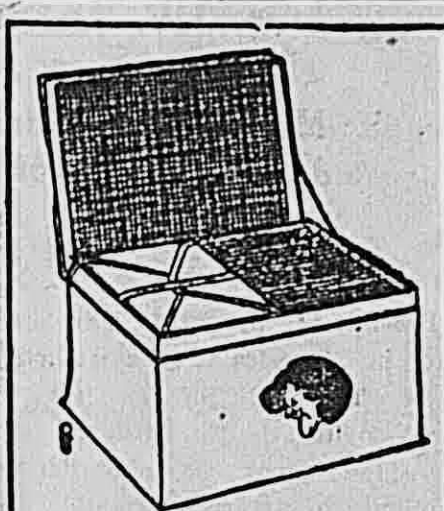

The Raindrop

The raindrop is round instead of flat, or some other shape, because it is really a great mass of tiny little bits of round vapor particles, each complete in itself. One clings to another and thus a sort of "ball" is formed. When of sufficient weight the drop heads toward the earth.

DELLS OF WISCONSIN CLAIMED BEAUTY SPOT OF THE NATION

Scenic Motor Trip Is Suggested by Auto Club of Illinois

Proclaimed by noted travelers as one of America's greatest attractions, "The Dells" of Wisconsin bids well to its rightful title as such. Here the tourist basks in the very sublimity of nature, formations that had their start in the early ages. The famous Wisconsin beauty spot, untouched by work of artisan stands by itself as being distinctively different from all others of nature's beauty spots.

Such is the itinerary of the weekend tour suggested for this week by The Automobile club of Illinois in co-operation with The Antioch News. Softly idling its way through the sandstone rock to a depth of 150 feet for a distance of 10 miles, the Wisconsin River passes through many odd and curious formations exposing strata of varied coloring.

Many tributary canyons have been formed by small streams leading into the main channel and perhaps the most striking feature of the "Dells" trip is the walk through these miniature canyons, covered as they are with lichen moss, ferns and flowers. In many places large trees with seemingly perilous hold, cling to crevices in the rocks and arching overhead, shut out the bright light and offer a cool retreat on a mid-summer day.

GAMES NEXT SUNDAY

Wilmot at Silver Lake.

Somers at Antioch.

A 7 to 2 victory by Silver Lake over the Wilmot Pirates Sunday on the latter's diamond tied up the two teams for Inter-County league leadership.

Victory for the Lakers was produced mainly because of a great hurling exhibition by Norman Richter, who set the league leaders down with six hits and struck out 11 batters.

Shubert Frank pitched well for Wilmot but he was afforded shaky support in spots.

Meet Next Sunday

These two teams are slated to renew their hostilities for the league's undisputed supremacy when they clash again next Sunday. This time the scene of action shifts to Silver Lake.

Somers and Antioch were rained out on the former's grounds. Next week they are due to meet at Antioch and while nothing definite has been said about the matter, there is a chance of a double-header.

ORDER OF EXERCISES—STANDARD TIME

Low Mass and Instruction at 6:30 a. m.

High Mass and Sermon at 8:00 a. m.

Blessing of Religious Articles after both Masses 7:45 p. m. Rosary—Sermon—Benediction

WHAT IS A MISSION?

A Mission is a special season when by the grace of God the eternal truths of our origin and destiny are brought home most effectively; when sinners are converted, the good are made better, and the lost sheep are reclaimed. "Come ye apart, and rest awhile," said our Blessed Lord to his Apostles.

FOR WHOM IS THE MISSION?

For the sinner, for the lukewarm, for the perfect, for all. Non-Catholics are cordially invited and welcome.

WHY SHOULD I MAKE THE MISSION

Because I want to save my soul. To encourage weary, despondent sinners to make their peace with God. "If your sins be as scarlet, they shall be made white as snow." Isa. 1:18.

ALL ARE WELCOME

Bring along your friends. Non-Catholic as well as Catholic.

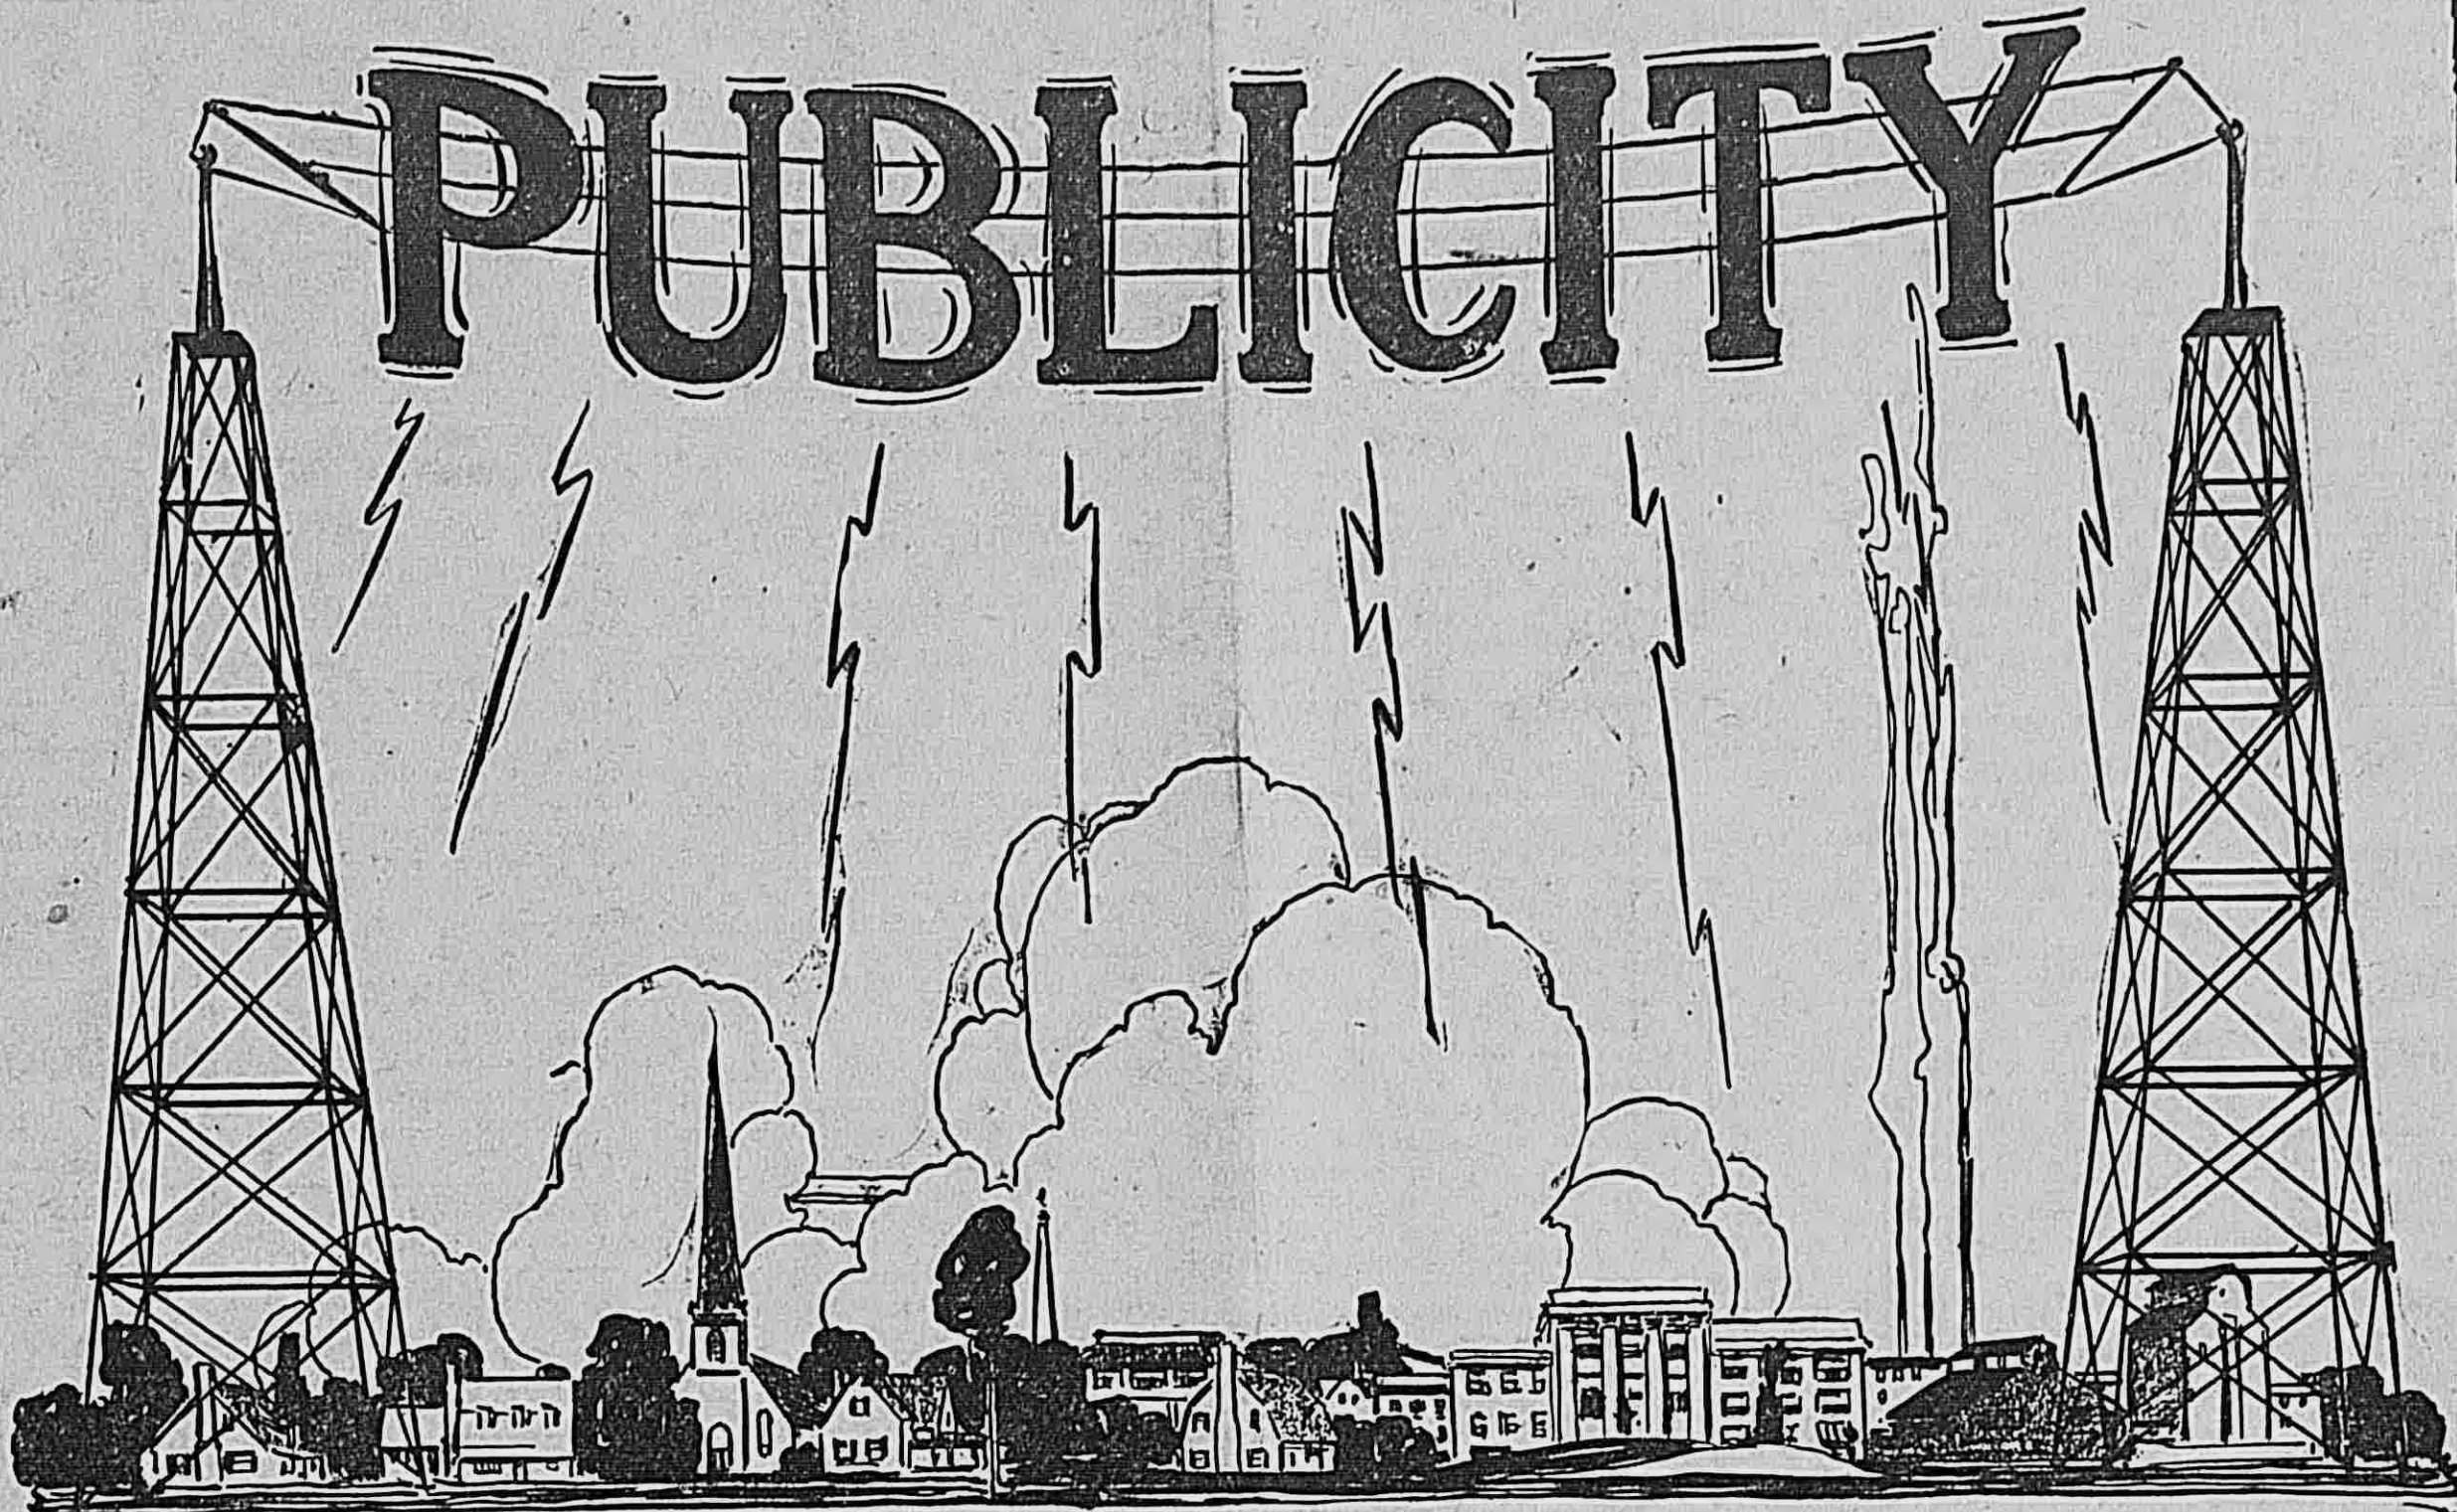

FATHER DAN FRAWLEY, Pastor.

No matter how small the order, no matter how big... we have but one standard by which we measure our efforts in handling it. We are satisfied only when it is

The Best We Can Do

Publicity is to a town what baking-powder is to a biscuit.

Publicity raised old King Tut out of the obscurity of an Egyptian tomb and made his name a modern household word.

Publicity has taken obscure individuals and raised them to fame and fortune.

Publicity is the potent factor that has brought individuals, events and places into national prominence.

And since publicity is of such importance in the scheme of things it can do much for us collectively as a city. Therefore it behooves us to know something about it, and how to use it for our advantage.

There are two kinds of community publicity:

INTERNAL PUBLICITY:—Designed to tell the people who live in the community and surrounding trade territory of the advantages of our town and to establish a closer bond of confidence and cooperation.

EXTERNAL PUBLICITY:—Designed to tell the people outside of our "Greater Community" of the advantages and opportunities of living and doing business here.

The newspaper is, of course, our most convenient and logical medium for both INTERNAL publicity and EXTERNAL publicity. This is true in every community.

Second only to the newspaper, is "word of mouth" publicity. It has been said that if each person in a town successfully strove to bring one new family into the town, or create employment for one other person, population, prosperity and business could be doubled within a year's time.

If we are proud of our town (and we are) let's give our town PUBLICITY! The kind of INTERNAL publicity that makes us glad it's OUR town, and the kind of EXTERNAL publicity that makes the rest of the world wish it were theirs!

Folks, let's "broadcast" to the world the good points of our town, and "tell 'em" why we are proud to live in

CHAPTER VIII—Continued

Joshua swung around with amazing
quickness in a man of his size. There
was a look almost of sly considera-
tion in the china-blue eyes that
stabbled questioningly into Fellowes'.
"Ah, yes," he answered. "Heard
of you, Captain Fellowes. Heard of
the incident you mention, of course.
That d-d cur, Chater—ah, ahem,
humpf! But why'd you come to me?
You must know my brother and I—"
"I have information in that connec-
tion which I think will interest you,"
Fellowes interrupted quietly.

Inglepin drew a step nearer. There
was no suggestion of slyness in his
face, now. His expression was eager,
curiously avaricious. His blue eyes
were cold as Fellowes' own.

"This d-d license business, eh?"
"That—and more."

Inglepin hesitated, then asked ab-
ruptly:

"Treason, eh?"
"I believe so, sir."

"Knew it, by G—d!" Joshua
stamped his hip delightedly. "Knew
the d-d fool couldn't play with fire,
and not burn his fingers. Knew it
soon as I heard he was keeping on the
True Bounty's crew. But you, sir,
how'd you—"

"I can't tell you here, Mr. Ingle-
pin. Will it suffice if I say I escaped
several days ago from the Badger
sloop-of-war? And have just sur-
prised your brother and his daughter,
with Chater, entertaining Captain
Collishaw at Chater's farm on Long
Island?"

Joshua Inglepin slipped his arm
through Fellowes', and the light in
his eyes danced and flickered as if a
wind was blowing it.

"Come with me," he said. "My of-
fice will do. Glad you dropped in,
Captain Fellowes. Believe you and
I can do some business. Eh? Treason!
But I expected it. I expected it.
Ben always would over-reach himself.
Ha, ha! The d-n fool!"

"... a petition Lord Wellington
said, the ministers were cordial, but
they'd require a definite petition. I'm
persuaded 'tis that document your
brother has been concocting these
past months."

"He's been hand-in-glove with
every rumpsteak Federalist in the
North," admitted Joshua.

"Exactly, sir, and my guess is that
before going further with it they
awaited some answer from the Cana-
dian authorities. If I'm right 'twas
that answer Collishaw delivered at
Babylon."

"And why wouldn't they have
turned over the petition, or whatever
the thingummy was, to him?"

"'Tis likelier they'd choose to con-
vey it themselves since most delicate
negotiations would flow from it. I
feel this the more strongly, sir, after
hearing the True Bounty is held ready
for sailing."

"Sounds reasonable," growled Josu-
ha. "So our job is to find this abom-
inable scrawl?"

"We should have your brother's
house and office searched tonight,"
Fellowes returned promptly.

"You'll find no papers in Ben's
house or office, Captain Fellowes, you
nor anyone. I knew the scoundrel,
and knowing him I refuse to under-
stand him. Aboard ship, maybe. Yes,
but not until after she's sailed."

"Wait for his sailing, then, and pur-
sue," exclaimed Fellowes.

"Take him red-handed, eh? That
would be best. You may depend upon
it, he and Chater are taking extraor-
dinary precautions in whatever they
are up to. As for the girl—humpf!
If my eyes tell me anything, she has
more sense than her father."

"She is unusually intelligent," Fel-
lowes agreed heavily. "I'd prefer
not to speak of her."

"Humpf! Hal Qute so! But if
I'm to play with you, captain, I want
all the cards on the table—face up."

"I have no intention that it should
be otherwise, sir."

Inglepin was undeterred by the
frothy note in his caller's tone.

"No necessity for pique," he assert-
ed briskly. "I can't afford to run the
risk of having good plans spoiled by
a man's weakness for a woman." The
china-blue eyes danced again with the
flickering light that seemed at once
to warm and chill them. "Seen it
happen too often. Shouldn't put it
past Ben to use her for that purpose."

"She can have no influence upon me,
Mr. Inglepin."

"Hate her, eh? Same as her fa-
ther? Same as Chater?"

"Hate her?" And suddenly a flame
blazed up in Fellowes. "Yes, I hate
her! I hate her for my stripes. I
hate her on Collishaw's account. I
hate her for the treason she prac-
tices. I—I hate her!"

Joshua Inglepin sat back with a
little grunt of satisfaction.

"You'll do," he decided. "I'm not

so sure 'tis—uh—what you call it,
Captain Fellowes; but the sentiment
will safeguard my interests."

"And what may your interests be?"
Fellowes asked harshly.

"Need you ask?" countered the mer-
chant. "I am on all fours with you in
this matter, sir. I'd see Ben hung
high as Haman, and Chater beside him.
The girl—Well, we needn't discuss her.
'Tis not pleasant for you, and I'd not
fight a woman, might I help it?"

"What of Collishaw?"
"That's your affair."

"Nathless, he must figure in any
bargain we strike," declared Fellowes.
"Granted," conceded Joshua, "with-
in limitations."

"As what?"
"To begin with, we must inform the
proper authorities of your discoveries.
I'm as skeptical as yourself of the
efficacy of this step, but 'twould be in-
advisable to ignore it. I am, I may
say—" the mellow voice became a
shade pompous—"on terms of intima-
cy with Governor Tompkins, who is
also in command of the military dis-
trict for the administration. Whatever
he can do to aid us, we may rely
upon. I'll see him, myself. So shall
you. And we'll present the matter to
him without reservation, eh?"

"I am willing," Fellowes agreed.
"And then, sir?"

"Come with me, if you please."
Joshua took his hat, and motioned
toward the door.

"Don't wait for me, Howel," he
called to the gray clerk as they passed
to the street.

Fellowes was silent until they had
crossed the road.

"What other limitations to our bar-
gain had you in mind, sir?" he asked.

"Only such as motives of patriotism
should place upon the satisfaction of
private enmity. Your pursuit of Cap-
tain Collishaw must await the de-
struction of my brother's conspiracy."

"To pursue them back we'll require
a ship."

"Exactly my thought, captain! 'Tis
a ship we are after this moment."

They entered South street, and
turned toward Gouverneur. Ahead of
them was Christian Bergh's shipyard,
and Fellowes' face lightened at sight
of the graceful fabric that loomed
above the scaffolding of the ways.

"Ah, the beauty! The sweetest brig
I ever saw!"

"No shipwright like old Christian,"
Inglepin responded.

"Is she yours?"

"Not yet. Christian built her for
speculation. Out of blind pride and
confidence in his own skill."

"She's heavier built than the regu-
lar clippers," commented Fellowes.
"What's her tonnage?"

"Close to four hundred, I think.
Christian built her for strength, no
less than speed. And she's well
sprung, you see. You could drive her
in a gale under tops'ls."

"But she's long for her beam."
"Yes, that's to give her clearance.
She's 115 feet over all, and 28 feet
beam."

Rounding the bow, Fellowes saw the
name Centurion carved in square,
block letters just aft of the hawser
pipes. He stood so long on his van-
tage point, feasting his eyes on the
swelling lines of the hull, estimating
the sail spread of the lofty masts,
fancying how she could be pushed in
ordinary winds, and driven in dirty
weather, that he did not hear Joshua's
summons until it had been repeated.

"Oh, I beg your pardon," he ex-
claimed, and scrambled down to shake
hands with leathery, squinty-eyed
Christian Bergh.

"You like her, ja?" the old ship-
wright asked proudly.

"She's the handsomest thing I ever
saw, Mr. Bergh. I only wish I could
buy her."

"Fifteen 'ousand tollars I ask for
her, mit sails, battery, everything."

"I haven't fifteen thousand dollars,
but if I had—"

"You don't need it," Joshua inter-
rupted abruptly. "She's sold." He
turned to Bergh. "I'll pay the money
into Bakers for you, eh, Christian?"

"Dot suits me, Mr. Inglepin. Undt
anything you want I put in her."

Inglepin took Fellowes by the arm,
and walked a few feet aside.

"I'll wager you can run down the
True Bounty with that, Captain," ex-
ulted the merchant.

"I can run down the True Bounty,"
assented Fellowes, "but she's no use
to me unless she can fight the Badger."

"That's your bargain? Fight a
King's sloop-of-war with a priva-
teer?"

Discovery of Vitamine Vital to Human Race

The greatest discoveries of benefit
to the human race have been the re-
sult of accident. Columbus, seeking
for a short cut to India, stumbled on
America. Perkin, searching for a
means of producing artificial quinine,
hit upon aniline dyes. When Japan
and Russia were in the throes of a
death struggle for supremacy, Japan's
navy was being decimated by ber-
berl. Laboring to find a preventative
for the disease, that was making the
Japanese panic-stricken, some one re-
membered that a Dutch scientist dis-
covered in 1897 that pigeons fed on
polished rice developed a disease
which had all the characteristics of

berl-berl. Orders were issued forth-
with to stop feeding the sailors with
polished rice and to substitute the
whole grain; promptly and without
delay, the berl-berl disappeared. Sci-
entists, in their efforts to discover the
"why," as a famous author expressed
it, found the missing link that binds
food to health, happiness and achieve-
ment—they came upon the vitamine.

It was this discovery that enables the
human family to keep from starving
on a full stomach.

Tree Belfries
Many of the first Christian church
bells were fastened in tall trees that
stood near the church, writes Satis N.
Coleman in his book, "Bells." Even
today, in some villages of Russia and
other countries, the bell hangs on
the branches of a tall tree in the
churchyard. In Iceland the bell usual-
ly is placed in the "lych gate," a cov-
ered entrance to the graveyard. The
tree belfry once was common in Scot-
land and Ireland.

Patriot's Family
Nathan Hale's immediate family
consisted of his father, mother, and
sister. He was engaged at the time
of his death. Farewell letters ad-
dressed to his mother, sister and
fiancee were destroyed before his
eyes. He was the son of Deacon
Richard and Elizabeth Story Hale.

"Yes. Fight her, and take her."
"A dangerous business! If 'twas a
Frenchman, now, or a bloody Dago.
But a Britisher!"

"Aye, the best ship of her size in
the King's fleet," Fellowes rejoined,
uncompromisingly.

There was comprehension, yes, and
respect, in the look Joshua gave the
Long Islander.

"Hate him that much, eh? But
there'd be no sense in sinking your-
self doing it."

"None," Fellowes admitted. "But
with the right battery—"

He broke off, and halted the ship-
wright, who loitered near, gazing lov-
ingly on the thing he had created.

"Mr. Bergh. What guns were you
figuring for her?"

"Well, I leave dot for you undt Mr.
Inglepin. But if you put in run-
nades, heraps we say eighteen-pound-
ers, den you better not hate more dan
sixteen—undt a couple of long twelves
for chasers."

Fellowes shook his head.

"A privateer has no proper use for
carronades," he said. "She should
never fight at close range. Give us
long twelves in the broadside bat-
teries, and we'll mount a twenty-four-
pounder Long Tom forward on a
pivot."

"A twenty-four-pounder!" Mr. Ingle-
pin cried protestingly. "You'd rack
her to pieces."

But Christian Bergh dissented vo-
ciferously.

"Not dot Centurion! I buildt her
for rough work. Ja! We put in some
more heavy beams in der fo'c'sle,
undt brace der deck."

"Yes, you'd better reinforce those
bulwarks, Mr. Bergh. I'd like her to
be as strong as a navy vessel of her
class."

"She will be," promised the ship-
wright. "Mit dot brig you can fight
a King's ship, if she chase you. Ja!"

They talked then of storage room,
and spare sails and cables, and ar-
rangements in the galley for a nu-
merous crew—"you'd best reckon on
a hundred and fifty men, captain,"
advised Inglepin. "Aside from our
private ventures, I hope you'll have
the luck to pick up prizes. And
prizes take hands to bring them in."

And afterward, in the glow of late
afternoon, they said good-bye to
Bergh, and retraced their steps to the
warehouse in Front street. Joshua
led the way to the table beside which
they had held their earlier conversa-
tion.

"I am a business man, sir," he said,
pointing to a chair. "And I find it
more satisfactory to have definite
agreements, of a contractual nature,
with persons I deal with. So, if you
have no objections, we will reduce
our relations to writing. Perhaps
you will be so kind as to express your
side of the bargain?"

Fellowes peered out the small-
paned window next him at the tree-
bordered street, dusty and peaceful
and very quiet since the workers had
gone home. It was difficult to asso-
ciate this soberly charming scene
with all the wild and tumult events
that had preceded it, difficult to im-
agine that only a few miles distant,
off Sandy Hook, the Badger plied her
errands on the blockade, that perhaps
Collishaw had pressed three more
men to take the place of Tom, Cuffee
and himself.

He was conscious of Joshua Ingle-
pin's china-blue eyes studying his ex-
pression with avid intensity.

"My bargain is of the simplest,
sir," he answered coolly. "You will
purchase the brig Centurion for op-
eration as a privateer. I am to be
master of the brig, and I will sail as
soon as may be, whenever the True
Bounty puts to sea. My major object
will be to overhaul the True Bounty,
search her for papers or documents
of treasonable purport, and if any
such are found, seize all persons
aboard her. Having done so much,
I shall be at liberty to make every
attempt to bring the sloop-of-war
Badger to action, after which I will
return to this port, and render ac-
count to you of my operations."

"Clearly phrased," applauded
Joshua, grasping a quill pen in his
chubby hand. "I will write it, by
your leave, sir. A more matter of
form, captain, but advisable, always
advisable." He scribbled rapidly at
a sheet of foolscap. "Here, sign it
you please."

Fellowes wrote his name, with a
perverse sense of futility in the ges-
ture.

(TO BE CONTINUED)

Idea of Profit-Sharing Put on Business Basis

Bruce Grey, the noted political
economist of San Francisco, said in
an argument about the recognition
of Russia:

"Lenin and his gang promised the
proletariat a new heaven and a new
earth. What they have given the
proletariat is a new hell."

"It reminds me of the manufac-
turer who called in the foreman of
his factory and said:

"Boys, I want to keep up with
the philanthropic movements of the
day, so accordingly I'm going to es-
tablish a profit-sharing system here.
I now put all hands from the first
of the year on a profit-sharing basis."

"The foreman beamed. One of
them said:

"What are our profits so far,
boss?"

"No profits, George," said the
manufacturer in a pleasant voice.
"No profits, but a loss of \$30,000.
The men's share is a 15 per cent
wage reduction. Tell 'em to expect
it in their envelopes next pay-day."

—Detroit Free Press.

English Beadle Passing But Tribe Not Extinct

The passing of beades is being
lamented in England. One of the
last existing specimens, the beadle
of Kew, seeks peace and retirement
after a generation of service. Mani-
fold were the powers and duties of
this worthy. In addition to being
beadle, he was head-borough, con-
stable of the manor court and herds-
man. His beadlehood gave him au-
thority to whip naughty boys who
talked in church, and attack sinners
who broke the customs of the manor.

There are, however, plenty of be-
ades today, here as well as in En-
gland. They are the self-appointed
variety. Lacking the historic robe,
cocked hat and decorated staff,
they are clothed in a shroud of brief
authority. The gaudy uniform may
go, but the Bumble spirit we shall
have always with us.—New York
Herald Tribune.

History, when it repeats itself, is
not responding to encores.

FAMILY DOCTOR MADE MILLIONS OF FRIENDS

Fifteen years after his gradu-
ation, Dr. Caldwell became famous
for a single prescription which
now, after forty years, is still mak-
ing friends.

Today Dr. Caldwell's Syrup Pep-
sin is the world's most popular lax-
ative. Millions of people never
think of using anything else when
they're constipated, headachy, bil-
ious, feverish or weak; when
breath is bad, tongue coated, or
they're suffering from nausea, gas,
or lack of appetite or energy.

Dr. Caldwell's Syrup Pepsin is
made today according to the origi-
nal formula, from herbs and other
pure ingredients. It is pleasant-
tasting; thorough in the most ob-
stinate cases; gently effective for
women and children. Above all, it
represents a doctor's choice of what
is safe for the bowels.

Logo Physic. A fruit salt derivative, quick-
ly relieves poisons that cause headache,
colds, bad breath, rheumatism, lethargy.
Regular size bottle from 6 to 12c. 12c
for postage. Midland Lab., Box 1232, Chicago.

Burns' Portrait Found
A Naaburn portrait of Robert
Burns, painted in 1803 and lost for
more than a century, is reported
to have been found recently by a
miner's wife in Larkhall, Scotland.
The picture, said to be a striking
likeness of Burns, is a canvas 27
by 23 inches inside the frame and
carries an indistinct signature which
experts believe to be that of Naaburn.
It was "picked up for a few
shillings," according to a Glasgow
newspaper, in a second-hand furni-
ture shop.

FEEL GOOD?
Most ailments start from peevish-
ness (constipation or semi-constipa-
tion). Intestinal poisons sap vital-
ity, undermine your health and make
life miserable. Tonight try KR-

Why Boys Leave Home

BY JOE ARCHIBALD

Why We Do What We Do

by M. K. THOMSON, Ph. D.

PENNY WISE AND POUND FOOLISH

I KNOW a man who drives a mile each day to the ice house because it is twenty cents a hundred cheaper than ice delivered. And he boasts of his frugality. Evidently he does not figure in the price of gasoline, the wear and tear on his car, the chances of scratching his fine sedan or of wetting the carpet by the melting ice, the time that it takes to go after the ice and the fact that frequently he forgets to go at all and the family is left without ice over Sunday or a holiday.

This man is penny wise and pound foolish and doesn't know it. The same is true of the head of a large concern who spends his valuable time cutting the envelopes of all his letters into sheets of paper to use as scribbling paper and thinks he is economizing. For a few cents he could buy all the scratch paper he is likely to use in a month.

There is no end to illustrations of how we are all penny wise and pound foolish in some matters. The reason is that we are short sighted. We see only the immediate. The small saving looks big to us because it is concrete and definite. We lose sight of the greater losses we encounter because they are removed in time and space and because they are abstract.

We are penny wise and pound foolish for want of knowledge, self-deceptive habits of thrift, false notions of economy, lack of ability to think the matter through or to figure out in exact terms just where the saving, if any, comes in.

The person who is penny wise and pound foolish is the last one in the world to realize that he needs the services of an efficiency expert, for he is all the while congratulating himself on his wisdom and efficiency.

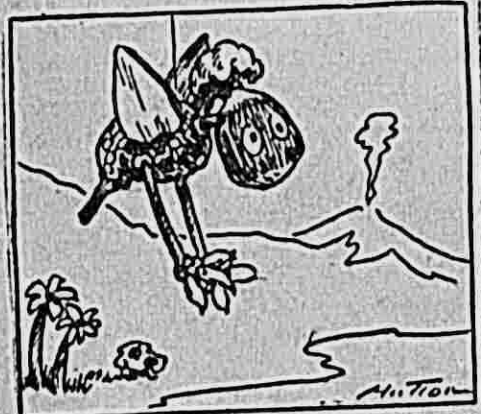

Perhaps what we lose in money by being penny wise and pound foolish is made up to us in the elation of self-deception.

NUTTY NATURAL HISTORY

BY HUGH HUTTON

THE FINNISH NOPPLE

SWARMS of nopples swoop down over the Finnish flocks to feed on the schools of finnan haddies. Having no nose, the nopples are about the only creature outside of a Finn that can eat a finnan haddie, which has an odor like a thirteen-year-old lutefish. To build its nest, the nopples collect several discarded auto tires and arrange them in an equilateral triangle with the acute angle down. Having

bisected this by long division, it lays three eggs, from which hatch seven young nopples in time for the next finnan haddie school.

This nopples looking over the coconut trees along the coast for a nesting place has a peanut body and a flbert head. Split almond kernel wings and popped popcorn topknot add considerably to its appearance. The legs are toothpicks, with popcorn toes firmly imbedded in a wad of chewing gum. Claves will do in a pinch for the tall and neck.

THE THINGS REMEMBERED

By DOUGLAS MALLOCH

WE COME upon old places now and then, Old places long forgotten in life's stress.

We stumble on a pathway once again—I wonder if there is forgetfulness? We may forget, but something else within

Remembers every pathway we have been.

We turn a bend, we open gate or door, And something says, "You have been here before."

I greatly doubt we ever do forget: The heart remembers, though the mind may not.

Each touch, each look, leaves something with us yet.

I doubt there is anything forgot. The present seems so all-important now.

And yet we never lose the past somehow:

Some quiet day the heart shall yet recall

The little, most important things of all.

(© 1920, Douglas Malloch.)

Through a Woman's Eyes

by Jean Newton

SUSPICION AND MISTRUST

"WILL you please write something about the evil and the danger of suspiciousness?" urged a correspondent.

"I have just had the most humiliating experience through being suspicious of my maid. It wasn't with regard to her honesty, but in the matter of her intentions for the summer. We are not going away for the summer, and although she definitely assured me that she was staying, my mother, had suspected for some time that she would leave us to go with people who would take her to a summer resort.

"So long did mother keep harping on this that I began to see in the girl's every move a trick or a scheme to leave me when I needed her most. Naturally this affected my attitude toward the girl, which caused friction, and when something concrete occurred that made me practically certain I was wrong, I was entirely mistaken.

"There were perfectly simple explanations for every act that we had misinterpreted, and through our suspicion invested with ulterior motives. Absolutely innocent, routine matters we had colored black for ourselves by looking at them through suspicious-spectacles.

"Can you imagine how cheap I felt in the presence of that girl?"

There is nothing that could be added to strengthen the lesson that is in that letter, except perhaps to say that mistrust is a boomerang. Just as confidence will bind to you even a person whose loyalty may be wavering, so through suspicion and mistrust you are certain to lose the loyalty of even the most faithful, whether they be employees or friends.

The woman who wrongly suspected her maid has not only the waste of her nervous energy to charge against this. Suspicion is more expensive than that. By her strained attitude toward the girl, engendered by her suspicion, she gave her a grievance. And by expressing the suspicion she robbed herself of the affection and loyalty of her employee.

Appreciative

Many of us are beginning to become firmly convinced that the only person who loves a speech is the fellow who is making it.—American Magazine.

Mother's Cook Book

'Tis not in much that happiness is found, 'Tis not from splendor merry laughter springs, The woman to the latest fashion gown'd, Though all her fingers blaze with jeweled rings Can mean no more to him she loves, Than can the pure good wife of any honest man. —Edgar Guest.

HINTS AND THINGS

HERE is the latest and most highly recommended blood purifier. It is easy to prepare, doesn't cost much and will not be hard to take. Cook a bunch of young beets, tops and all, after giving them a thorough washing. Drain off the liquid—there should be a pint—add the juice of a lemon and put into the ice chest. Drink a wine glass full before breakfast and another at night before retiring. The beets may be seasoned and used as vegetables as well as the beet tops, so there is nothing wasted—a real scotch tonic.

Eat freely of asparagus tips as early and as long as it is possible to get them. These are the best kind of kidney tonics.

Do not be afraid to eat onions and garlic; they are absorbed into the circulation, that is, their oils and mineral matters, within a short time. Garlic, a clove eaten a night for three months, is said to cure hardening of the arteries. It is worth a trial, even if one has to withdraw from the rest of the family.

If you are well, strive to keep so, by proper exercise and careful eating. It is very easy to keep well, but when once the health is broken, it means long hard work to get it back.

With every magazine full of advice, setting up exercises given each morning over the radio, one has no excuse for not knowing a few of the important exercises to keep the body fit.

Walking, swimming, horseback riding are all the best of exercises. The housewife says: "I have enough walking to do in the home." That is true, but it is not the right kind of walking.

Head up, chest out and abdomen in, breathing down to the bottom of your lungs and refilling with the fresh air. If one cannot go outside for the walk and the deep breathing, anyone may stand at an open window or door and take a few full breaths, then expel them in short breaths, filling and refilling the lungs. It will give you new vigor and vim to start the day.

Then take a glass of hot water with half a lemon squeezed into it and you will be ready for breakfast in a half hour. Lemon juice taken daily will cure constipation, all forms of rheumatism, liver troubles, and headaches—this seems enough to ask of a lemon.

Green Beans.

Cut the tender beans diagonally in half-inch pieces. Drop into boiling water and cook rapidly until tender. Serve with salt, pepper, butter and cream if desired, or a dash of lemon juice.

Baked Corn and Tomatoes.

This is best of course with the fresh corn, but makes a very good dish with canned corn and tomatoes. Arrange corn and tomatoes in layers, adding salt, pepper and dot generously with butter; then cover with soft bread crumbs. Bake thirty minutes in a hot oven.

Dear Editor:

I'VE noticed those married couples are happiest where the husband just smiles patiently when the wife starts to tell a good one on him.

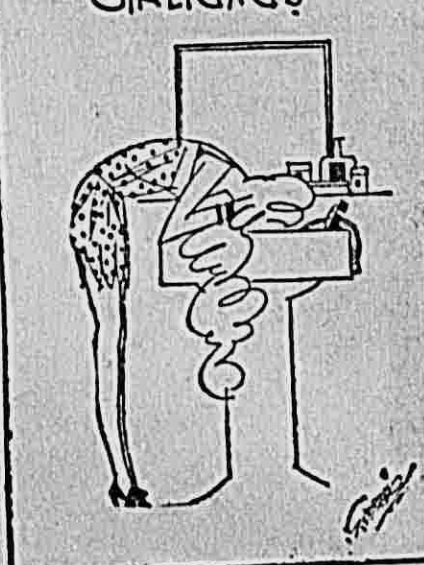

The summer I was told to bring home the minister to supper and brought the wrong one, I suppose more people got innocent merriment out of my dumbness than have laughed at Pat and Mike. And that time I bought tomatoes at the store when we had some in our own garden, that was a laugh, too.

How did I know we had a garden?

It's a good thing for all of us to have a few tangible, reasonable failings. It would be terrifying to live with a paragon.—Fred Burton.

GIRLIGAGU

"Dellah may have cut Samson's hair but she was no professional," says Bobbed Roberts. "There's no mention of her asking if he wanted a shave and a shampoo." (Copyright.)

Poland Today

A Village Street in Rural Poland.

(Prepared by the National Geographic Society, Washington, D. C.)

POLAND'S importance among the nations of Europe has been recognized by the United States by the raising of the United States legation at Warsaw to the status of an embassy. There has been a marked friendliness since the World War between the great republic of the Western hemisphere and the new republic of Central Europe, and a loan of many millions has gone from the former to help place the latter on a strong financial foundation.

American business methods have captured the imagination and admiration of the Poles, and scarcely a work on scientific management is published in America today that is not translated into Polish. Poland has industries that were begun before the discovery of America, but some of them are being rejuvenated by American methods under the guidance of American engineers.

Oldest of Poland's industries to be affected by new methods are her salt mines which were adding to the savor of Central European foods as early as the Tenth century. The first iron forge began operations in 1333 and may be looked upon as the beginning of the iron founding industry which now contributes millions of dollars worth of values each year to Polish manufacture. An important lumber industry, based on timber lands covering 52,000 acres, was begun in the Eighteenth century. A tree must be ninety years old before it is cut. The entire forest area of the country is more than 22,000,000 acres.

One of Poland's most interesting industries is a plant for building railway equipment that was started in Napoleonic times as a wagon factory. The textile industry keeps more than 3,000,000 spindles busy, and there are numerous factories for the manufacture of paper, chemicals, and metal articles.

Only Germany, which is Poland's nearest western neighbor, exports more goods to the country than does the United States. In a recent year the United States furnished approximately 10 per cent of all Polish imports.

Old Poland Resurrected.

The Poland of today is not an entirely new entity. She is rather a resurrection of the old Poland which once was one of the greatest nations of Christendom. In size she outranked nearly every nation of the continent. Russia alone of the European nations is larger than Poland was at her greatest. In population she stood at the forefront of Europe; only Russia and Germany had greater populations before the war than are to be found in the lands that once were Poland; for unpartitioned Poland had an area of 252,000 square miles, and the lands that once lay within her boundaries support a population of approximately 50,000,000. In area she was as large as the former German empire, Switzerland, Belgium, Holland and Denmark together; larger than Great Britain, Italy and Greece combined; larger than Austria-Hungary and Servia in one. Within what were her boundaries there dwells a present population larger than the combined populations of Great Britain and Belgium; larger than those of France, Belgium and Holland together; and matching that of the old Austria-Hungary.

Poland was three times partitioned, and these partitionings were rendered between the partitioners by the congress of Vienna in 1815. Where the original partitions had given Russia 181,000 square miles, Austria 45,000 square miles, the reapportionment of the Vienna congress gave Russia 220,500, Prussia 26,000, and Austria 35,000 square miles. Much of the land which Prussia secured, and particularly Kiev, had been identified with Russia generations before.

Poland, in the days of her greatest area, extended from a point within 50 miles of Berlin, on the west, to the meridian of the sea of Azov on the east; on the north it reached nearly to the Gulf of Finland and on the south down to the Khanate of Crimea.

Former Russian Poland. What was known before the World War as Russian Poland is that neck of territory stretching westward between the Prussias and Galicia. This territory has an area almost exactly equal to that of New York state, yet, in spite of the fact that its extreme southern boundary lies north of the latitude of Winnipeg, its population is as great as those of New York and New Jersey combined.

Former Russian Poland, in this limited sense, consists of a great plain, somewhat undulating, with an average elevation of about 400 feet, sloping upward toward the highlands of Galicia on the south and toward the swelling ground paralleling the Baltic on the north. It joins the lowlands of western Germany with the great plain of western Russia. Its rivers are slow and sluggish, with their mouths often but a few dozen feet below their sources and seldom more than a few hundred feet below. Their basins intricately interpenetrate one another, and the frequent inundations of these basins have covered them with a very rich alluvial soil.

Russian Poland usually has a winter somewhat similar to that of New England. There is an even cold, with not a great deal of snow, but often with razored winds from the northward. The rivers of this region usually freeze over about the middle of December, and the Vistula is under ice for approximately 80 days during the average winter.

In the Eighteenth century, when the city of Warsaw, next to Paris, was the most brilliant city in Europe, this flat plain was unusually rich in herds and geese flocks, though almost bare of manufactures.

Poland's history has been a tragic one through the ages. Next to the Russians, they are numerically the most important of the Slavs. They first appeared in Great, or North, and Little, or South, Poland in the Tenth century, where they found other Slavic tribes in possession. The wise policy of their kings early induced the whole nation to profess Christianity.

People Have Changed Little. Of medium size, with round heads and healthful faces, the blond more common than the brunet, their physical appearance has apparently changed little. The working classes, who constitute nine-tenths of the nation, have always been laborious, frugal, enduring, temperate rather than abstemious, and intensely patriotic. Their szlachta, or nobles, have shown themselves impetuous, brave to rashness, chivalrous, insubordinate, emotional, artistic.

During the formative period Poland was consolidated by the dynasty of the great Lithuanian, Jagellon, the Polish Wladislaus II—a succession of princes unsurpassed in constructive ability. Union with the Lithuanians doubled the population and the national resources. Together they crushed the Teutonic knights at Tannenberg in 1410 and half a century later at the peace of Thorn pushed them east of the Vistula. The Polish lands on the Baltic, together with Danzig and Marienberg, were recovered. The Duchy of Mazovia, of which Warsaw was the center, five centuries independent, voluntarily joined the kingdom which a few years later spanned Europe from the Baltic to the Black sea. The Reformation, regarded with a suspicion as having a German origin, only for a time disturbed the country.

The advantageous situation of the kingdom, the admirable qualities of its common people, and the development already attained, seemed to assure the greatness and permanence of the Polish state. Yet in Poland's history there is disappointment on every page. The brilliant passages are episodes without connection or result. Nowhere else is so much valor wasted. The chasm was always widening between the nobles and the common people. The people paid all the taxes. The nobles, all equal, possessed all the wealth and power, but had no sense of obligation or responsibility. Intrepid in battle, they were ready to fight for the country only when so inclined.

Downfall and Partition. The system of government was oligarchic in the extreme. Succession to the powerless throne was elective, native or foreigner alike eligible. Each election was an orgy of turbulence and bribery. Twice the throne was put up at auction. The liberum veto, established in 1652, whereby the negative vote of a single member of the diet nullified any act or all the acts of all the rest, culminated in anarchy and eventually brought about the destruction of Poland.

Yet the criminal foibles of a privileged class in no way excuse or palliate the iniquity of the three partitions of Poland in 1773, 1793 and 1795 by Prussia, Russia and Austria.

Poland has enriched the world in music, art, and literature. The national dances, the polonaise and the mazurka, were always accompanied by singing. Copernicus is Poland's greatest name. Skieniewicz, victim of the World War, by many considered the most brilliant writer of the day, was a Pole, as is Paderewski.

HISTORY'S MYSTERIES

Unsolved Riddles That Still Puzzle Authorities Here and Abroad

The Fate of "Fighting Mac"

THE son of a Scotch laborer, Hector MacDonald commenced his eventful life in the most prosaic of manners—first as a barefoot plow-boy and then as a clerk in a country store. As far back as he could remember, however, he had wanted to be a soldier and, as soon as he was old enough, he enlisted as a private in the Gordon Highlanders, carrying the musket of a private soldier. Then, during the Afghan campaign of 1879, came the opportunity which was to mean so much to him.

In company with a small body of men, MacDonald found himself surrounded by some two thousand or more natives, bent upon the total destruction of the British soldiers. The officers having been shot, MacDonald took command of the detachment and led them in a dashing bayonet charge which ripped the ranks of the enemy wide open and cut a line through which the English marched to safety. As a reward for his exceptional bravery, Lord Roberts offered MacDonald his choice of the Victoria Cross or an officer's commission and, without a moment's hesitation, the Scotchman chose the latter, despite the fact of the prejudice existing against the exceptional officer who had battled his way up from the ranks.

During the years that followed, MacDonald's career was one of almost continual success. During the Sudan campaign he was raised to the rank of colonel in appreciation of his defeat of a Dervish attack upon the British flank and, during the Boer war, his military accomplishments were so marked that he was knighted and made a brigadier general.

During the intervening years, however, he had been constantly waging another war—one against the prejudice and enmity of certain officers of the army who were jealous of the former private's advancement and who, in consequence, tried to do everything in their power to belittle and humiliate him. The honors which General MacDonald received at the hands of the queen wiped out some of these scores but only intensified others and, after his appointment to the command of the military post at Ceylon, certain grave charges were preferred against him which were undoubtedly without the slightest foundation.

His nerves frayed by the constant strain under which he had labored and feeling that he had been abandoned by the friends he had made, Sir Hector applied for leave of absence in order to return to London, where he had a personal interview with Lord Roberts, who is reported to have advised him to return to Ceylon and fight the accusations to the limit. Other officials of the war office were outspoken in their demands for an instant court-martial, but whether this radical step was taken has never been made public.

"Fighting Mac," as he was affectionately known to the rank and file of the British army, accordingly left London supposedly for the Orient, but only proceeded as far as Paris where he registered at a rather secluded hotel and kept strictly to himself. Not long afterward all England was amazed by the news of the suicide of the general, who was reported to have sent a bullet through his head after reading an account of the charges against him.

But his reported death by no means ended the strange sequence of events connected with his career. Although the Scotch soldier was supposed to be a bachelor, his family was informed that the general's widow had taken the body back to Scotland and that the interment had taken place quietly, with no military honors whatever. Little by little a rumor gained credence to the effect that "Fighting Mac" was not dead, but that he had returned to the Orient under an assumed name and had offered his services to the Mikado—one story stating that the famous General Kuroki, who attained such prominence during the Russo-Japanese war, was none other than the Scotch general. But the British war office took no cognizance of these reports and adhered to its original statement about General MacDonald's death in Paris.

Incidentally, the commission of inquiry into the charges against him in Ceylon returned a report completely absolving him from all blame—but no inquiry, official or otherwise, has ever swept away the veil of mystery which surrounds the fate of one of the most gallant officers who ever fought under the British flag.

Trachoma on Decrease

Trachoma is less prevalent among the Indians of Arizona and New Mexico than it has been. A survey made in 1912 was repeated in 1928. In the 11 tribes under observation there was a reduction of about 64 per cent in the incidence of trachoma. About 4,700 Indians were examined in 1912, and nearly one-fourth of them had trachoma. In 1928, after supervision and treatment in the interval, 6,700 Indians were examined, and less than 9 per cent were found to be so affected.

Human Heads as Trophies

South American aborigines have a process for shrinking and preserving the heads of their slain enemies. These are known as Jivaro heads and are about the size of an orange.
